WHAT ABOUT GRADUATE SCHOOL AND FURTHER EDUCATION?

When investigating requirements for careers of interest, be sure to take note of educational requirements – particularly if they require further education beyond a bachelor's degree. While there are many programs open to 3-year degree graduates, some may require a 4-year degree, the equivalent of a 4-year degree, or a combination of education and experience.

For graduate school programs requiring a 4-year degree, you might want to consider:

- Getting additional work experience before applying to further education to apply later as a mature student.
- Extending your 3-year degree by adding a certificate or additional courses to be equivalent to a 4-year degree.
- Taking additional colleges courses or a 1-year diploma at a college to make up the equivalent of a 4-year degree.
- Exploring if it is possible to take required courses at the future institution during a year as a qualifying student before beginning graduate education.
- Research programs that are more flexible in their requirements. In particular, private institutions, college post-grad diplomas, and intentional programs (e.g. Europe) where 3-year undergrad degrees are a common requirement to apply for an MA program.
- Learning from your classmates about what programs they are applying to with their 3-year online degrees.
- Read the article [Post-Graduate Options for General \(90.0 unit\) Bachelor's Degrees](#).
