## Part II – Deep Reflection

Using a specific experience from Part 1, take your reflections deeper to pull out valuable insights about yourself and your experience that you can weave into stories in job interviews, applications for grad school, or to help inform your career decisions.

1. What was the most challenging thing about this experience? How did I overcome it?
2. What results or accomplishments came from my work? How did I achieve my goals?
3. What impact did I have on those around me, or the environment I was in?
4. How did this experience change me? What do I do or see differently now?
5. What was the most significant thing about this experience for a potential employer? How could this experience help you make a bigger contribution?
6. What is the biggest thing I learned? Why does it matter? How will I apply it in the future?
7. Did it reveal any areas for future growth? Certain skills or knowledge that I want to improve? What specific goals can I set to grow in these specific areas?
