Why GRADUATE STUDIES in PHILOSOPHY?

The Department of Philosophy at Queen’s University has faculty working in a wide variety of fields, including political philosophy, ethics, bioethics, feminism, contemporary metaphysics and epistemology, philosophy of language, philosophy of science, continental philosophy and the history of philosophy. The department’s colloquium, which meets weekly during the term, affords the opportunity for graduate students to interact with distinguished visiting scholars in a wide variety of philosophical fields.

Why QUEEN’S?

Queen’s offers high quality graduate programs that aspire to give students both a solid general education in philosophy and opportunities for specialized work on topics of students’ choosing. Queen’s Philosophy faculty are very productive in a broad range of areas of research. The small size of the graduate programs allows for individual attention and a collegial atmosphere.

“The Philosophy department is both intimate and vibrant – offering the benefits of smaller classes with the advantages of a diverse faculty.”

– Christine Esselmont, MA, PhD

At Queen’s, the philosophy graduate students form an active and supportive community. They organize their own colloquium series at which they present work-in-progress, and they participate in departmental reading and research groups, such as the Political Philosophy Reading Group that meets regularly throughout the year. All students are members of the Philosophy Graduate Student Association, which selects representatives to serve on various departmental committees. The historic city of Kingston, with its vibrant downtown, is a great place to live and study, and the University is proud of its attractive campus situated on beautiful Lake Ontario.

We encourage you to identify an area of research interest and contact a potential supervisor before applying.

Visit the Philosophy Department website to read faculty profiles and learn more about faculty members’ research areas. When you find a faculty member with similar research interests to yours, contact him/her and tell them about your interest in graduate work, area of research interest and related experience. The email correspondence is also an opportunity for you to find out if the faculty member is accepting new graduate students to supervise.
