Application FAQs

What do I need to know to APPLY?

ACADEMIC REQUIREMENTS

- Grade requirements: The admissions process to the Queen's MScPT program is highly competitive. To be eligible for admission, students must first have a four-year baccalaureate degree or equivalent with a minimum second-class standing (B) from a recognized university. Subsequent to this initial requirement, further academic requirements include cum-GPA and sub-GPA cut-off values. The actual cut-off mark is based on the applicant pool. In 2017, the sub-GPA cut-off was 3.68.
- Course prerequisites: Courses in introductory psychology, statistics, human anatomy, and human physiology

ADDITIONAL REQUIREMENTS

- Queen's Physical Therapy Personal Submission Form questions.
- Two Confidential Reference Forms (downloadable from ORPAS website).
- Documented evidence (through volunteer work, community service or personal experience) of strong interest in the profession of physical therapy, knowledge of the profession and desire to work with people of all ages.
- Canadian Citizenship or Canadian Permanent Resident Status
- Completion of prerequisite courses.

LANGUAGE PROFICIENCY

Applicants who have resided in Canada or another English speaking country for less than three years as of the first day of the month of the term in which students are to begin must achieve a satisfactory score on one of the following tests:
- Test of English as a Foreign Language (TOEFL) - minimum score required: 250 for computer-based test; 94 for iBT.
- Michigan English Language Assessment Battery (MELAB) - minimum score required: 80.
- International English Language Testing System (IELTS) - minimum score required: 8.

For a complete list of admission requirements, view the MScPT Admission Requirements.

KEY DATES & DEADLINES

- Application opens: Mid-October
- Application deadline: Early January through ORPAS
- Notification of acceptance: Mid May

What about FEES?

You are not technically eligible to apply for a bursary before becoming a registered student at Queen's University, however, you may be eligible for bursary assistance through student awards, including OGS bursaries and the Queen’s General Bursary. In addition, every second year as of the first day of the month of the term in which students are to begin must achieve a satisfactory score on one of the following tests:

Why do I need a bursary?

Bursaries are financial assistance for Queen’s students who demonstrate academic achievement in the form of high grades or professional development opportunities, excellent funding packages and life in the affordable, historic waterfront city of Kingston, Queen's offers wonderful environment for academically and personally. Check out the SOS, HANDS resource for available resources.

Where can I get help?

Queen's provides you with a broad range of support services from your first point of contact with the university through to graduation. Ranging from help with academics and careers, to physical, emotional, or spiritual resources – our welcoming environment offers the programs and services you need to be successful, both academically and personally. Check out the SOS, HANDS resource for available resources.

What is the community like?

At Queen's, graduate students from all disciplines learn and discover in a close-knit intellectual community. You will find friends, peers and support among the graduate students enrolled in Queen's more than 130 graduate programs within 50+ departments & research centres. With the world's best scholar, prize winning professional development opportunities, excellent funding packages and life in the affordable, historic waterfront city of Kingston, Queen's offers a wonderful environment for graduate studies. Queen's is an integral part of the Kingston community, with the campus nestled in the core of the city, only a 10-minute walk to downtown with its shopping, dining and waterfront. For more about Kingston's history and culture, see Queen's University's Discover Kingston page.

Why GRADUATE STUDIES in PHYSICAL THERAPY?

The mission of the Master's of Science of Physical Therapy (MScPT) program is to provide an outstanding learning environment for the education of future physical therapy professionals. With critical inquiry and evidence-based practice as the foundation, the program promotes the acquisition of advanced academic knowledge, skills and behaviours that are essential for a primary health care provider in a complex and continually evolving health care environment. The overall aim of the MScPT program is to ensure that the graduate acquires the essential competencies of a practicing physical therapist and has the ability to lead active contributions to and engage in the continually evolving health care environment.

Why QUEEN'S?

The School of Rehabilitation Therapy was established by Queen's University in 1967 to meet the needs of the local population. We continue to make active contributions to and engage in the daily lives of individuals and communities regionally and internationally.

Program STRUCTURE

As a full-time, continuous, 24-month program, the MScPT program is structured as a series of 14 "blocks". Each block is 7 weeks in length. Nine blocks are devoted to academic instruction on campus and 5 blocks are assigned clinical placement experiences.

The majority of your clinical placement experiences will be arranged in facilities within the Queen's University catchment area. Catchment boundaries normally include Whitby in the west, Cornwall in the east, and Orellia/ Midland in the north. For each placement, students have the opportunity to rank their top 5 preferences from a list of available placements. Placements are assigned based on student preferences and a priority system to ensure students are given experiences in multiple practice settings to meet the program requirements. Typically, there is no financial support to cover the costs associated with clinical placement. For international placements, there may be additional funding available through the Student Experience Fund. You will complete approximately 1,125 hours in clinical placements, in diverse practice settings in order to meet graduation criteria.

I currently work at a clinic that has a few hopeful Queen's PT applicants for this year. Talking to them made me reflect on just how amazing my time at Queen's really was." – Jesse Avenus, MSc PT

Upon successfully completing the MScPT program at Queen's University, graduates may apply to the Canadian Alliance of Physiotherapy Regulators to take the Physiotherapy Competency Examination.

The examination must be successfully completed in order to attain professional registration to practice as a physical therapist in Canada.

A full description of the program objectives, curriculum design and academic course descriptions can be found on the School of Rehabilitation Therapy (SRT) website.
INTERMEDIATE STAGE

- Participate in clinical skills labs to gain and master physical therapy skills, and learn skills needed to critically appraise research in the field of physical therapy.
- Take part in valuable class and teamwork activities including lectures, discussion, and problem solving through challenging cases with support from experienced clinicians and faculty members.
- Apply critical thinking skills to clinical cases in class and on clinical placement.

WRAPPING UP

- Complete your course work.
- Reflect on the professional skills acquired through your clinical experience.
- Learn how to properly articulate your skillset when applying for jobs with Career Services workshops.
- Attend the Rehab Society’s annual Career Fair which is organized for graduating students (January or February).
- Practice articulating the skills you have been developing in settings outside the university, such as casual conversation, networking, and interviews. Get help from a Career Services workshop.
- Check out opportunities for extra training through CTL, Expanding Horizons, MyGradSkills, or other sources to boost your skills.

WHAT WILL I LEARN?

The curriculum follows a competency-based framework in which the specific goal is to prepare individuals to undertake the roles of a physical therapist in Canada. A graduate degree in Physical Therapy can equip you with valuable and versatile skills, such as:
- Knowledge and technical skills
- Effective communication skills in multiple forms for diverse audiences
- Information management: prioritize, organize and synthesize large amounts of information
- Time management: Meet deadlines and manage responsibilities despite competing demands
- Project management: develop ideas, gather information, analyze, critically appraise findings, draw and act on conclusions
- Creativity and innovation
- Perseverance
- Independence and experience as a collaborative worker
- Awareness, an understanding of sound ethical practices, social responsibility, responsible research and cultural sensitivity
- Professionalism in all aspects of work, research, and interactions
- Leadership: initiative and vision leading people and discussion

WHERE CAN I GO?

A Master’s degree in Physical Therapy can take your career in many directions within the field of PT. Our Master’s students are equipped for challenging opportunities in:
- Hospitals and rehabilitation centers
- Outpatient clinics
- Private practices
- Primary care teams, including Family Health Teams and Community Health Centres
- Community agencies
- Home care
- Children’s treatment centers and school health programs
- Multidisciplinary health care teams
- Sports physiotherapy clinics
- Government
- Policy and professional organizations
- International development and aid organizations

Taking time to explore career options, build experience, and network can help you have a smooth transition to the world of work after graduation.
