Get to know FRENCH STUDIES

Le Département d’études françaises offre trois programmes d’études au 1er cycle (de la mineure au baccalauréat spécialisé), deux certificats de compétence (intermédiaire et intermédiaire-avancé), ainsi que des cours destinés aux débutants, le tout dans une atmosphère collégiale et chaleureuse. Vous pourrez améliorer votre compétence en français, ou étudier la littérature et la culture de langue française. Il est également possible de participer à un programme d’échanges au Québec ou en France. Cet échange peut se faire au courant de l’été ou pendant l’année scolaire et peut alors être de une ou deux sessions.

The French Studies department offers three undergraduate concentrations (a Minor, a Medial and a Major), two certificates of competence (intermediate and intermediate-advanced) as well as elective courses for beginners. Areas of study include oral and written language as well as French literature and culture. Courses are offered in a supportive and collegial atmosphere. It is also possible to study French in either Québec or France during the summer, one semester or through year-long exchanges.

A Common START

Students in our Faculty are admitted into Arts, Science or Computing but the focus is on a common first year. Through self-exploration, and while you settle into university life, you have the opportunity to work with our advisors and faculty to discover your real interests and identify opportunities for success. Sometimes that discovery happens fairly quickly, and for other students it takes some work and time before the “ah-ha!” happens – either way your first year at Queen’s will be a great experience.

Course HIGHLIGHTS

French Studies courses are much more than just language courses. Take courses such as Histoire culturelle et littéraire de la France moderne et contemporaine that discusses French 19th Century and contemporary literature and explores predominant trends in different media such as painting and cinema. Or consider more internationally focused courses such as Histoire culturelle et littéraire de la francophonie et du Québec that looks at the history of ideas and cultural evolution in French Canada, African and Caribbean culture and literature, from the colonial period to the present day.

That is a degree from Queen’s.

How to use this map

Use the 5 rows of the map to explore possibilities and plan for success in the five overlapping areas of career and academics. The map just offers suggestions – you don’t have to do it all! To make your own custom map, use the My Major Map tool.

A balanced approach leads to long-term success. While you will learn a lot from your studies, taking time to get relevant experience outside of the classroom, build your network, and gain international experience, will position you to be more competitive in your job search or grad school applications.

Get started thinking about the future now – where do you want to go after your degree? Having tentative goals (like careers or grad school) while working through your degree can help with short-term decisions about courses and experiences, but also help you keep motivated for success.

Get the help you need

Queen’s provides you with a broad range of support services from your first point of contact with the university through to graduation. At Queen’s, you are never alone. We have many offices dedicated to helping you learn, think and do.

Ranging from help with academics and careers, to physical, emotional, or spiritual resources – our welcoming living and learning environment offers the programs and services you need to be successful, both academically and personally, and Queen’s wants you to succeed! Check out the Student Affairs website for available resources.
