Get to know LANGUAGES, LITERATURES AND CULTURES

*The world can seem like a big place, but through LLCU you get a glimpse into its diverse parts. The Department is a vibrant unit covering Arabic, Chinese, German, Hebrew, Inuktitut, Italian, Japanese, Mohawk, Portuguese and Spanish languages and cultures. We also offer a popular program in Linguistics.*

Studying Languages or Linguistics has many advantages for personal growth and future careers. Learning another language can give you the ability to step inside the mind of a culture and express yourself in a new way – opening many career possibilities in our globalized society. Speaking a foreign language opens the door to a study abroad experience, giving you an excellent opportunity for an immersion in the language and culture, and setting you apart from other students. The Department offers many exchange opportunities and encourages all students to explore international study options. Study abroad scholarships are available to students participating in an exchange and are based on academic excellence.

Through learning Languages and Cultures or Linguistics, you develop strong analytical thinking skills, allowing you to analyze possible outcomes and be more flexible and creative. This ability is a valuable complement to any discipline – making LLCU not only a major but a very popular minor to many Queen’s degrees such as History, Art History, Politics and Global Development Studies.

**How to use this map**

Use the 5 rows of the map to explore possibilities and plan for success in the five overlapping areas of career and academics. The map just offers suggestions – you don’t have to do it all. To make your own custom map, use the My Major Map tool.

A balanced approach leads to long-term success. While you will learn a lot from your studies, taking time to get relevant experience outside of the classroom, build your network, and gain international experience, will position you to be more competitive in your job search or graduate school applications.

Get started thinking about the future now – where do you want to go after your degree? Having tentative goals (like careers or grad school) while working through your degree can help with short-term decisions about courses and experiences, but also help you keep motivated for success.
