Queen's Undergraduate Internship Program (QUIP)

Last Updated: August 2024

DOES QUEENS HAVE CO-OP?

At Queen's, we call it an internship. Our internship program offers undergraduate students a 12-16 month, paid, full-time work term typically after second or third year.

WHEN CAN I HIRE AN INTERN?

Queen's internships can start in May, September, or January.

QUIP follows a continuous recruitment cycle, so you can post internship positions, interview, and extend offers when it works best for your team.

For May or January start dates, we recommend posting jobs in the fall to attract the largest number of qualified applicants. For September start dates, many employers start posting positions in May or June.

TYPICAL WORK TERMS

HOW DO I POST A JOB?

Scan the QR code below and visit MyCareer or email quip@queensu.ca for support.

WHY HIRE AN INTERN THROUGH QUIP?

- 1 Hiring for 12 - 16 month paid work terms maximizes returns on training, minimizes recruiting costs, and allows interns to engage in significant projects that make a difference for your organization.
- 2 Students in over 70 programs are eligible to participate, giving you access to a broad range of skills and knowledge sets.
- 3 Interns arrive with a solid foundation of skills having already completed two or three years of their degree.
- 4 Interns return to Queen's to complete their studies and spread the word, raising your organization's profile on campus.
- 5 Employers in Ontario who hire QUIP interns may be eligible for the Ontario Cooperative Education Tax Credit and additional hiring incentives.

“

My favourite part about my internship experience was the people I got to meet and the hands-on work that I completed. I was able to work on projects where I designed parts or systems and was able to see them be installed or implemented on site. I was able to do root cause analysis' on mechanical components that were failing, and determine the best solution to fix the problem. Each day at site, there was a new challenge or problem where I could work with the millwright, electrician, process engineer, maintenance engineer, or operations to solve it.

~ QUIP Intern Jaedyn Smail, Mechanical Engineering

“

Hatch is impressed with the high caliber of talent we meet, which is why Queen's is one of our top schools for recruiting students and new grads. Hatch has an engaged group of Queen's alumni that are eager to recruit and mentor the next generation of talent.

- QUIP Employer Stephanie Cera Amenta, Global Campus Talent Acquisition Leader, Hatch
