

Show your Support!

- Demand for our services and programs is on the rise.
- Donations help us fill gaps that are not covered by government funding. This helps reduce wait times for essential services.
- Support us in providing life-changing treatment and support for children, youth and families in our region.

What We Do

At Five Counties Children's Centre, we:

- Offer innovative, evidence-informed care for kids and youth with developmental, physical and communication needs up to age 19 (or age 21 if still in school).
- Provide speech therapy, occupational therapy, physiotherapy and other treatment supports to enhance the independence of children/youth.
- Are proud to serve families in the counties of Peterborough, Northumberland, Haliburton and City of Kawartha Lakes since 1975.

Families play a central role in a child's success!

We believe in the **strength of families** to help achieve the best treatment results for kids. Family is among the **6 F-words of Child Development**, all of which we use to guide our services to help kids be their best and brightest!

- **Family** is the essential 'environment' for kids.
- **Function** refers to what a child does, and play is a main focus.
- **Fitness** is how kids stay physically active and healthy.
- **Fun** means activities kids love to do.
- **Friends** refer to the bonds forged with others, including peers.
- **Future** refers to dreams and aspirations for a child/family.

What We Believe

Our Vision: Building Abilities for Life

Our Values:

We believe:

- in the strength of **kids and families**
- **our staff** is our most valuable resource
- in the importance of **our communities** as key partners
- in delivering **excellent services** as our clients deserve nothing less

“
**By working together
and being accountable,
we can make a
difference!**
