Why GRADUATE STUDIES in GENDER STUDIES?

Gender Studies opens doors for students to address growing concerns for inequity, equity, and justice across national and global society. Gender Studies is a space where our theories and our practices pay attention to the differences and connections between diverse peoples worldwide.

As an interdisciplinary field, Gender Studies helps students take up social science, humanities, arts, and natural science methods and connect them to produce innovative new knowledge. Graduates of the PhD in Gender Studies at Queen's work in such fields as education, health, law, public policy, social research, social work, media, art, and community organizing. Gender Studies prepares students for both academic and nonacademic careers.

Why QUEEN'S?

The four-year Gender Studies PhD program sustains our program focus on critical race, gender, and sexuality studies while offering advanced training in applications of Gender Studies research within work for social change.

Gender Studies at Queen's distinctively foregrounds critical race conceptual frameworks at all levels of our undergraduate and graduate degree programs. Students examine gender, our key category of analysis, in terms

of its interdependence with race, class, nation, sexuality, disability, age, religion, colonialism, and globalization. Students conduct research in Canada and internationally and articulate their scholarship with local and global action for social justice. Students produce scholarship that is directly applicable to work for social change and to a wide variety of academic and nonacademic careers.

Program STRUCTURE

The PhD in Gender Studies is a four-year program. Full-time PhD students complete three (3.0 credit) required courses, one (3.0 credit) elective course, one (0.0 credit) Proseminar course, and the (3.0 credit) PhD Practicum. Students advance to candidacy for the PhD after completing all coursework, syllabus, and practicum requirements and having successfully defended their dissertation proposal.
