Environmental Studies

Society has become more aware of the seriousness of the environmental problems we face. Yet, at the same time, we have realized that the solutions are not simple. To work towards environmental sustainability, people need to understand the multi-disciplinary nature of environmental problems. They need to have expertise in planning, policy, and many other fields in addition to scientific principles to deal with the social, economic, and cultural complexities that surround environmental issues.

REASONS to study ENVIRONMENTAL STUDIES

- Dive into messy, real-world problems. See academic knowledge in action, whether on campus or globally.
- Gain transferable skills that employers want while learning how to prepare arguments and solve problems.
- Help create the future world in which you want to live.
- The best way to find solutions: combining both the arts and the sciences.
- Research-focused courses in upper years contribute to projects happening across Canada and around the world.

Interested in finding out how to augment your degree with Experiential Learning? Check in with your department to learn more about what opportunities and resources are available for you!

ALUMNI JOBS

Graduates of this program can pursue jobs in the private sector, government, and non-government organizations, as well as post-graduate studies.

Interdisciplinary training leads to opportunities in research, consulting, policy development, and projects working on specific problems.

Many will continue to professional degrees in law, planning, business, and public administration.

2025-26 Plan Thresholds

Thresholds are made on a competitive basis and are updated annually. To see the thresholds for all programs as well as the latest information, please visit quartsci.com/planselection

Environmental Studies MAJOR MAP

Queen's

BACHELOR OF ARTS: HONOURS DEGREE (SPECIALIZATION/MAJOR/MINOR) OR GENERAL DEGREE

	1ST YEAR	2ND YEAR	3RD YEAR	4TH OR FINAL YEAR
GET THE COURSES YOU NEED	In first year you will take ENSC 103, Environment and Sustainability, and you'll have the chance to explore the foundations of Environmental Science in biology, geography, and geology along with some electives. Attend Majors Night in the Winter term to learn more about Plan options. Interested in getting a head start in learning and working in a digital world? Take ASCX 150 and develop future-ready skills!	In second year you will take ENSC 230, Principles of Sustainability, and start going deeper into the discipline of Environmental Studies, while considering a minor and/or certificate such as Global Action and Engagement. Learn more about Certificates and Internship options. Want to make sure your academics are where you want them to be? Visit SASS (Student Academic Success Services) for some help.	In third year you will take ENSC 330, Applications of Sustainability, and have a chance to start grouping courses in areas of interest, or to keep it more general and explore many areas of Environmental Studies. Meet with an Academic Advisor to make sure you are on track and have planned out your courses for next year.	In fourth year you will have the chance to participate in research-based project that can lead to Graduate School or to your future career path. Make sure to finish up all your courses for your major(s), minor(s), and certificate(s).
GET RELEVANT EXPERIENCE	Join teams or clubs on campus such as the Earth Centre or Queen's Backing Action on the Climate Crisis. See Queen's Sustainability webpage, the AMS Clubs Directory or the Queen's Get Involved page for more ideas.	Look into <u>summer jobs</u> by talking to the dept. or Career Services about work through <u>SWEP</u> or <u>Work-Study</u> . Take more responsibility within different clubs or extracurriculars.	If interested, apply for an <u>Undergraduate</u> Student Summer Research Fellowship (<u>USSRF</u>). Consider applying to do a 12-16 month <u>QUIP internship</u> between your third and fourth year. Consider entrepreneurial opportunities via programs like the <u>Queen's Founders and Innovators Initiative (QFII)</u> .	Investigate full-time jobs or other opportunities related to careers of interest. If interested, look for environmental opportunities through Planet Friendly. Assess what experience you're lacking and fill in gaps with volunteering, clubs, or internships – check out the Career Services skills workshop for help.
GET ENGAGED WITH THE COMMUNITY	Volunteer on- or off-campus with different community organizations, including <u>Sustainable Kingston</u> , <u>SwimDrinkFish-Kingston-Hub</u> , <u>SWITCH Ontario</u> , and the <u>City of Kingston</u> .	Get involved with the Departmental Student Council (DSC). Watch for events hosted by the School of Environmental Studies, such as the Colloquium Series. Start or continue volunteering with organizations.	Do targeted networking with alumni working in careers of interest by joining through LinkedIn. Check out Career Services networking workshops. Connect with professors at events or workshops hosted by the DSC.	Consider joining professional associations like the Ontario Environment Industry Association. Join groups on LinkedIn reflecting specific careers or topics of interest in Environmental Studies.
GET ENGAGED GLOBALLY	Prepare for work or studies in a multi-cultural environment by volunteering with <u>Queen's</u> <u>University International Centre</u> . Speak to a QUIC advisor to get involved in their programs, events, and training opportunities.	Is an exchange in your future? Start thinking about where you would like to study abroad. Apply in January for a third year exchange through the International Programs Office.	Build your intercultural competence by getting involved with other cultures or by practicing or improving your language skills. Think about Internship Opportunities abroad related to Environmental Studies.	International students interested in staying in Canada can speak with an International Student Advisor.
GET CAREER READY	Grappling with program decisions? Go to <u>Majors</u> <u>Night</u> or get some help <u>wondering about career</u> <u>options</u> from Career Services.	Explore different careers of interest in the Career Services Information Area. For more information check out Career Cruising or by finding and connecting with alumni on LinkedIn.	Start focusing on areas of interest. Research education requirements for careers of interest. If needed, prepare to take any required tests (like the LSAT or GMAT) and get help thinking about Grad School from Career Services. Check out what some of our grads are doing at our website or attend our appual SES Graduate.	Apply to jobs or future education, or make plans for other adventures. Get help from Career Services with job searching, resumes interviews. Grad School applications, or

website or attend our annual SES Graduate

Research Day at the end of the winter term.

Knowledge & Workplace Skills

A degree in Environmental Studies can equip you with:

- Interdisciplinary perspective to understand environmental topics from a scientific, philosophical, and ethical point of view
- Understand natural and human factors related to environmental problems
- Knowledge of local, national, and global environmental problems and issues
- Analytical skills to analyze data for trends and apply statistical tests
- Ability to interpret data from scientific experimentation and make conclusions based on research
- Critical thinking to form, defend, and evaluate arguments and propose solutions
- Oral and written communication to create reports and give presentations
- •To work as a team on a long-term project
- Resource and time management

Career Possibilities

A degree in Environmental Studies can take your career in many directions. Many students choose to continue their academic inquiry with a Master's or professional degree. Our students are equipped with a strong foundation for careers in:

- Communications & Public Awareness
- Environmental assessment
- Environmental conflict resolution
- Parks and natural reserves
- Policy and planning
- Resource management
- Transportation
- Waste management
- Water policy and governance

Taking time to explore career options, build experience and network can help you have a smooth transition to the world of work after graduation.

How to use this map

Use the 5 rows of the map to explore possibilities and plan for success in the five overlapping areas of career and academics. The map just offers suggestions – you don't have to do it all! To make your own custom map, use the My Major Map tool.

Environmental Studies

Get started thinking about the future now – where do you want to go after your degree? Having tentative goals (like careers or grad school) while working through your degree can help with short-term decisions about courses and experiences, but also help you keep motivated for success.

Get the help you need

Queen's provides you with a broad range of support services from your first point of contact with the university through to graduation. At Queen's, you are never alone. We have many offices dedicated to helping you learn, think and do.

Ranging from help with academics and careers, to physical, emotional, or spiritual resources – our welcoming living and learning environment offers the programs and services you need to be successful, both academically and personally. Queen's wants you to succeed! Check out the Student Affairs website for available resources.

QUEEN'S UNDERGRADUATE INTERNSHIP PROGRAM

START DATES

in May, September, or January

POSITIONS

are paid and full-time

WORK TERMS

are 12-16 months long

PROGRAM OVERVIEW

- Graduate with "Professional Internship" on your degree
- Learn about current advances, practices and technologies in business and industry
- Explore a career path, earn a salary, and build workplace skills

ELIGIBILITY

- Complete 1st year before you register
- Complete 2nd or 3rd year before your internship
- Minimum GPA of 1.9
- Return to Queen's after your internship to finish your degree

WHY QUIP?

- Gain a year of career-related work experience
- Build network connections
- Receive support from Queen's staff in job search and during internship

SAMPLE PAST INTERNSHIPS

For more information, contact quip@queensu.ca or visit the Program Website.

Why study in Kingston?

Since 1841, our community has been more than a collection of bright minds – Queen's has attracted students with an ambitious spirit. Queen's has the highest retention rates, the highest graduation rates, and one of the highest employment rates among recent graduates. We are a research intensive university focused on the undergraduate experience. The BBC has identified Kingston as one of the GREATEST UNIVERSITY TOWNS in the world – and it is often awarded the safest city in Canada. It is a university city at the core; just a quick drive

than you think to Toronto, Montreal, Ottawa and even New York. A university with more clubs per capita than any other university in Canada, and a city with more restaurants per capita than any other city in North America you will have London / 7 hrs CANADA Oueen's the experience of a Beijing / 15 hrs lifetime at Queen's Dubai / 14 hr. - and graduate Vancouver / 5 hrs Calgary / 4 hrs with a degree that is globally Halifax / 2 hrs San Francisco / 5.5 hrs Kingston recognized Denver/3 hrs among New York / 1.5 hrs UNITED the best. STATES Dallas / 3.5 hrs Atlanta / 2 hrs Bermuda / 2 hrs
