Why GRADUATE STUDIES in CULTURAL STUDIES?

Cultural Studies is an emphatically interdisciplinary area of inquiry that draws from the humanities, the social sciences, and the arts. It asks practitioners to understand and contend with the paths, places, and people they come from, and to position themselves towards just and imaginative futures.

Cultural Studies researchers investigate cultural processes and objects, technologies, economic and social relations, institutions and identities. The methods and modes of presentation of any given Cultural Studies project are developed to match its goals and to reach the audiences who need to hear it. Thus Cultural Studies scholars produce work in a variety of media and modes, from the monograph thesis to visual art projects, musical and theatrical productions, and community-engaged collaborations.

Why QUEEN'S?

Established in 2009 and comprising over 100 distinguished faculty from over 20 disciplines, Cultural Studies at Queen's is committed to a diversity of students and faculty and to the global expertise that they bring to the cultural and academic fields. We are dedicated to centering antiracist, decolonial, Black, and Indigenous scholarship.

MA and PhD students take courses together in their first year, choosing CUST courses and graduate courses in other departments. Students serve as Teaching Assistants for undergraduate courses across the Faculty of Arts & Science, Research Assistants on grant-funded faculty projects in areas related to their research, and work on curatorial or community projects throughout the university and beyond. When they graduate, our students have superior intellectual tools and practical skills that will last them a lifetime inside or outside of the university. Cultural Studies graduates work in galleries, non-profits, arts organizations, and universities across Canada and beyond.
