Hire a Queen’s Intern

Tap into a pool of creative, talented, and ambitious students from one of Canada’s most prestigious universities.

Queen’s Undergraduate Internship Program (QUIP)
Over my Communications and Projects internship, I was able to oversee projects from start to finish, using time management, communication and organizational skills. I developed my ability to take initiative and even got to help train a new intern integrating into their role. I have applied the communication skills and interdisciplinary ideologies I study in the classroom to the ‘real world’. I’m now returning to my final year energized and ready to bring my skills and knowledge back to the classroom.

Hiring for 12 - 16 month paid work terms maximizes returns on training, minimizes recruiting costs, and allows interns to engage in significant projects that make a difference for your organization.

Students in over 70 programs are eligible to participate, giving you access to a broad range of skills and knowledge sets.

Interns arrive with a solid foundation of skills having already completed two or three years of their degree.

Interns return to Queen’s to complete their studies and spread the word, raising your organization’s profile on campus.

Employers in Ontario who hire QUIP interns may be eligible for the Ontario Cooperative Education Tax Credit and additional hiring incentives.

As a result of the work that [our intern] was involved in during their internship, the Drill and Blast department at Fording River implemented changes to some of its blasting practices. The resulting changes had a positive impact on our fragmentation and pattern design which in turn resulted in significant cost savings over the year. I hope their work term here was as beneficial to them as it was to Teck Coal.

- QUIP Employer David D’Andrea, Analyst Engineering, Teck Coal Limited

DOES QUEENS HAVE CO-OP?
At Queen’s, we call it an internship. Our internship program offers undergraduate students a 12-16 month, paid, full-time work term typically after second or third year.

WHEN CAN I HIRE AN INTERN?
Queen’s internships can start in May, September, or January.

QUIP follows a continuous recruitment cycle, so you can post internship positions, interview, and extend offers when it works best for your team.

For May or January start dates, we recommend posting jobs in the fall to attract the largest number of qualified applicants. For September start dates, many employers start posting positions in May or June.
