Why GRADUATE STUDIES in EDUCATION?

Join our inclusive research community of education experts. Our PhD program works on a mentorship model where new scholars work closely with established experts and collaborative research groups. Coursework is completed under the supervision of leading experts across the education spectrum. Our PhD graduates contribute innovative work transforming theory, policy, and practice. We offer competitive funding packages and opportunities for our PhD students to be teaching or research fellows, as well as research or teaching assistants.

Why QUEEN'S?

Queen's University has an active and vibrant graduate student community. Our Faculty of Education brings together diverse perspectives on education, fostering multidisciplinary expertise within an active collaborative research community. Our research leads to new knowledge and understandings about teaching and learning, and progressive changes in educational policies and practices.

As a researcher at Queen's, you will engage in outreach initiatives that serve and enhance communities of practice through local, national, and international partnerships.

WHERE CAN I GO?

A PhD in Education can take your career in many directions. In Canada, less than 40% of all PhDs will work in post-secondary education – the majority will work in industry, government, or non-profits.

- Educational Organizations
- Leaders in health sciences and government
- Post-doctoral fellows
- Provincial and Territorial Departments of Education
- Researchers at research agencies and school boards
- Teachers
- University faculty/researchers

Taking time to explore career options, build experience, and to network, can help you achieve a smooth transition to employment after graduation.

What about FUNDING?

All eligible full-time graduate students who request funding (financial support) as part of their initial application can expect to receive a funding offer to help them with the costs associated with their graduate studies in the Faculty of Education.

The minimum guaranteed funding package for PhD students is \$20,000 per year, and it is important to note that they must apply for all major external and internal (where appropriate) scholarships for which students are eligible in order to qualify for the minimum guarantee. Recipients of external awards will not receive \$20,000 on top of them; however, their packages are likely to be higher than those who do not win external funds. Normally, if students apply for and successfully obtain a Teaching and/or Research Assistantship the average funding for eligible PhD students is approximately \$25,000 - \$28,000 per year.

Funding packages are awarded to students based on academic merit and they may consist of any or a combination of the following: scholarships, fellowships, external awards the student may bring with them, internal awards, research assistantships, teaching assistantships, or graduate teaching fellowships. The Faculty also offers funding for presenting at conferences.

Apply for external funding from OGS, SSHRC/NSERC, and other sources. Queen's will automatically issue a one time \$10,000 award to incoming PhD students who have won federal government tri-council awards. For more information, see the School of Graduate Studies and Postdoctoral Affairs' information on [awards and scholarships](#) and the Faculty of Education's [funding information](#).
