Rehabilitation and Health Leadership DSc RHL MAP

Why GRADUATE STUDIES IN REHABILITATION AND HEALTH LEADERSHIP?

The DSc (RHL) is a 36 month executive-style degree program that allows students to continue working while completing the degree through a blend of onsite sessions and online learning.

The DSc (RHL) equips currently practicing rehabilitation and health professionals with the knowledge and skills they need to confidently pursue career opportunities that require advanced competencies in leadership, program development, applied research and evaluation, advocacy, change management, and knowledge translation.

The program format and curriculum design are firmly rooted in the belief that collaboration, creativity, and the discovery of new knowledge can inspire changes that benefit people affected by or at risk of disability.

The program is open to all professionals, whose current work or future career goals focus on advancing programs, services, and systems that will positively influence the everyday lives of people affected by or at risk of disability.

The cohort-based program has been designed with the working professional in mind. The blended program format includes short, intensive on-campus components (3-7 days) once or twice per year (depending on year of study), coupled with online learning.

Why QUEEN’S?

As the first professional doctorate program at Queen’s University, the DSc (RHL) will train leader scholars who are able to apply theory and use rigorous methodologies to inform decision-making in rehabilitation and health settings across the country and around the globe.

Program STRUCTURE

Students progress through the program on a full-time basis in order to complete requirements in 36 months. Students entering with a Master’s degree will complete a total of 5 required (core) courses (15 credits), two electives (6 credits), a comprehensive exam, and an applied dissertation. Students entering with a Bachelor’s degree will complete one additional core course (Critical Literature Review).

Core COURSES

• Applying Theory to Enable Change
• Applied Research and Evaluation
• Leadership Development
• Communication, Advocacy, and Action
• Preparing Competitive Funding Proposals

Applied DISSERTATION

Students identify a real-world problem in a rehabilitation or health setting, and design, implement and evaluate a process, program or system to address this problem.

Program DELIVERY

Learning outcomes will be achieved through several interwoven strategies:

• An initial 5 day, on-site intensive to orient students to the program in general, launch work on core courses, and meet peers, faculty members, academic advisors, etc.;
• On-line course work that integrates synchronous and asynchronous components including regular, technology-supported, group-based discussions that are independent of course work to support the development of a community-of-learning and professional network.

# Rehabilitation and Health Leadership

**DSc Map**

## Year 1

**Engage with your community**
- Participate in your graduate and professional community through activities such as graduate student outreach programs, organizing conferences, and research groups.

**Build skills and experience**
- Start keeping an eportfolio of your skills, experience and competencies.

**Maximize scholarly impact**
- Think about audiences for your research.
- Complete CORE online module on research ethics if doing research with living people or sensitive topics.
- Attend conferences in your field.

## Year 2

**Engage with your community**
- Do some targeted networking with people working in careers of interests, through Queens Connects on LinkedIn, the Queen’s Alumni Association, professional associations, and at conferences. Get help from a Career Services workshop.

**Build skills and experience**
- Find opportunities for extra training through CTL, School of Graduate Studies and Postdoctoral Affairs professional development, webinars, or other sources to boost your skills.
- Prepare for work or studies in a multi-cultural environment by taking the Intercultural Awareness Training Certificate hosted by SGSPA.

**Maximize scholarly impact**
- Present your work at graduate conferences such as the Rehabilitation Research Colloquium.
- Expand your research audience through social media such as Twitter or a blog.

## Year 3

**Engage with your community**
- Join professional associations like the Canadian Health Leadership.

**Build skills and experience**
- Complete your comprehensive examination.
- Continue to attend conferences and connect with scholars in your field and with community partners and with public outreach through social media and the Queen’s Media Centre.
- Set up a meeting with the School of Graduate Studies and Postdoctoral Affairs to go on Grad Chat to discuss your research interests.

**Maximize scholarly impact**
- Present your research to graduate students and faculty and work with advisor to prepare for dissertation presentation.
- Review submission and examination guidelines.
- Secure necessary oral defence accommodations.

---

**Program Outcomes**

DSc (RHL) Graduates will be able to:
- Critically appraise, synthesize, and integrate knowledge from multiple sources and consider the impact of its application on various stakeholders (e.g., patients/clients, practitioners, families, public and private systems that fund or deliver services), in order to improve rehabilitation and health practice and service delivery.
- Design, implement, and evaluate novel services, programs and processes in diverse areas of rehabilitation and health; 
- Advocate for and lead services and programs to enhance the lives of people affected by or at risk of disability.

**Where can I go?**

A Professional Doctorate degree in Rehabilitation and Health Leadership can take your career in many directions. Our students are equipped with a strong foundation for careers in:
- Leadership positions in organizations that provide direct healthcare services to those with or at risk of disability.
- Policy advisory roles in government and non-governmental organizations.
- Leadership roles in advocacy and non-profit organizations.

Taking time to explore career options while building your experience and networks can help you have a smooth transition to the world of work after graduation.
