Why GRADUATE STUDIES in AGING AND HEALTH?

Graduate studies in Aging and Health are offered through innovative programs that provide participants with a comprehensive understanding of aging, with a focus on health and healthy living. Students will develop multi-disciplinary knowledge of individual aging processes, the effect of aging on social systems, and the policies needed to support healthy aging. The program is meant to enhance students’ ability to contribute to the development, delivery and implementation of evidence-based care, services, and policies for older adults across a range of settings.

Why QUEEN’S?

The program is full-time and is completed from a distance, through a blended format of on-line and in-person learning. Intensive on-site sessions introduce students to core courses and e-learning technology, as well as provide an opportunity for in-person interaction with faculty and fellow class members. Elective courses are completed at a distance, on-line. The blended format of on-site intensives and on-line components couples networking and experiential opportunities with the flexibility of distance learning.

Queen’s University programs in Aging and Health position graduates for success in a variety of settings that serve the growing population of older adults including government, universities and colleges, for-profit and non-profit organizations, business and industry, and various healthcare settings.

Program STRUCTURE

PhD (4 years, full time): Course work consisting of 4 courses (normally including 2 core courses), comprehensive exam, thesis and defense.

Core COURSES

- AGHE 901 Knowledge Translation and Uptake
- AGHE 903 Critical Analysis of Theories of Aging

We encourage you to identify an area of research interest and contact a potential supervisor before applying.

Visit the Aging and Health page on the School of Rehabilitation Therapy website to read faculty profiles, and learn more about faculty members’ research areas. When you find a faculty member with similar research interests to yours, contact him/her and tell them about your interest in graduate work, area of research interest and related experience.

2021-2022

ACHIEVE YOUR ACADEMIC GOALS

- Meet early with your supervisor to set expectations and discuss roles, responsibilities, program requirements, resources, research occupational goals, timelines, and any required accommodation plans.
- Consider how your coursework can contribute to your research proposal and comprehensive examination.
- Look to Student Academic Success Services for a variety of supports.

YEAR I

- Priorities include completing your comprehensive examination and pursuing research.
- Find your way through the academic process with help from departmental and Expanding Horizons professional development workshops, the Aging and Health Program Director and Program Assistant and the SGS website.
- Set up regular meetings with your supervisor to discuss progress and obstacles to timely completion.
- Seek experiential/professional learning opportunities.

YEAR II

- Present your work at graduate conferences such as the Rehabilitation Research Colloquium or the Canadian Student Health Research Conference.
- Expand your research audience through social media such as Twitter or a blog.
- Apply for the Graduate Dean's Travel Grant for Doctoral Field Research.

YEAR III

- Continue to meet regularly with your supervisor, review research progress, and write your dissertation.
- Check out the SGS writing camps, such as Dissertation Boot Camp and Dissertation on the Lake.
- Use conference presentations to create and refine thesis or project material.
- Use conference presentations to create, discuss, and explore ways to disseminate research findings. Learn from the Expanding Horizons publishing workshop.
- Begin discussion of potential thesis defence examiners.

YEAR IV & TRANSITIONING

- Plan date of thesis submission for examination.
- Present your research to graduate students and faculty or at conferences and work with supervisors to prepare for defence.
- Review submission and examination guidelines.
- Secure necessary oral defence accommodations.
- Discuss career pathways, references letters, and publication options with your supervisor.

WHAT WILL I LEARN?

- A professional degree in Aging and Health can equip you with:
  - Knowledge and technical skills
  - Effective communication skills in multiple forms for diverse audiences
  - Ethical approaches to research and practice with older adults
  - Time management skills to meet deadlines and manage responsibilities despite competing demands
  - Project management skills to develop ideas, gather information, analyze, critically appraise findings, draw and act on conclusions
  - Creativity and innovation
  - Independence and experience as a professional scholar
  - Professionalism in all aspects of work, research, and interactions
  - Leadership skills to take initiative and lead discussions and influence people.

WHERE CAN I GO?

Queen's University programs in Aging and Health prepare you for success in a variety of settings that serve the growing population of older adults including government, for-profit and non-profit organizations. Potential career opportunities include:

- Program development, implementation, and oversight in community based or public healthcare organizations;
- Coordination and management roles in for-profit organizations that deliver services or create products for older adults;
- Policy development and analysis related to aging and society;
- Program evaluation for aging and health-related services.

In addition, graduates of this program have taken the knowledge and skills gained in this program back to their own places of employment to contribute to the development of age-sensitive services and practices. Taking time to explore career options while building your experience and networks can help you have a smooth transition to the world of work after graduation.

Build Skills and Experience

- Consider positions in student services, the SGPS, or media outlets like the Queen's Journal, CFRC, and the SGS Blog in the AMS Club Directory.
- Use a Teaching Assistant or Research Assistant position to develop your skills and experience.

Engage with Your Community

- Explore how you can connect with your community through experiential opportunities on and off campus.
- Consider volunteering or working with local community organizations that are focused on supporting healthy aging and aging in place.

Prope Your Career

- Finding career fit starts with knowing yourself. Take a Career Services workshop or meet with a career counsellor for help. Check out books like So What Are You Going to Do With That? or Planning a Scientific Career in Industry from the Career Resource Area for advice on various career options.
- Start reading publications like University Affairs and the Chronicle of Higher Education, to take into account labour market websites.
- Stay on the lookout for special events like School of Graduate Studies Career Week to explore your career pathways.
- Start building your teaching portfolio including student evaluations, and seeking mentorship.
- Explore different careers of interest by using Queen's Connects on LinkedIn to connect with Queen’s alumna for more information check out Career Cruising.
- Investigate requirements for professional positions or other opportunities related to careers of interest.
- Participate in hiring committees and attend job talks. Research academic careers of interest. Craft your CV and job application materials.
- Start focusing on non-academic areas of interest. Research organizations of interest and start putting together your industry resume and begin your job search plan.
- Build connections with faculty outside of your department. Pursue interviews for faculty positions and apply for post-doc fellowships and positions.
- Apply to jobs or make plans for other adventures. Get help from Career Services with job searching, resumes, and interviews.
- If considering jobs abroad, research possible immigration regulations. If you are an international student interested in staying in Canada, consider speaking with an International Student Advisor.

Application FAQs

What do I need to know to APPLY?

ACADEMIC REQUIREMENTS
- Completion of a Master’s degree in a related field with a minimum B+ standing. Contact the program director and potential supervisors to discuss how your studies and experiences to date may be related to the Aging and Health program studies.
- The entire transcript is reviewed but particular attention is given to your last 20 courses and how well you have progressed throughout your academic career. Preference is given to students with higher academic standing.

ADDITIONAL REQUIREMENTS
- Two references.
- Current CV.
- Letter of Intent.
- If English is not a native language, prospective students must meet the English language proficiency requirements in writing, speaking, reading, and listening. The following minimum scores are required: (1) TOEFL iBT: Writing (24/30); Speaking (22/30); Reading (22/30); Listening (20/30). Applicants must have the minimum score in each test as well as the minimum overall score, or (2) IELTS: 7.0 (academic module overall band score and a 7.0 for each test band), or (3) PTE Academics: 65, or (4) CAEL CE -70 (minimum overall score).

KEY DATES & DEADLINES
- Application deadline: February 15.
- Decisions will be made following that date.

Before you start your application, please review the Graduate studies application process.

What about FEES?
- Application Fee: $110
- Program Fee: An annual fee of approximately $1,607.00 (2021-2022) that covers costs of on-site intensive sessions including hotel room and meals.
- Tuition Fees: The tuition fees for the 2021-2022 year are just over $2,100 per term.

Apply for external funding and see the School of Graduate Studies’ information on awards and scholarships.
