Why GRADUATE STUDIES in CHEMICAL ENGINEERING?

As a PhD student in the field of Chemical Engineering, you can play a vital role in future developments in such areas as biological conversion, pollution prevention and treatment, tissue engineering, process control and optimization, (bio)chemical sensing, nanocomposites, and many other areas. Chemical Engineering has a wide range of applications that contribute to modern life and its technologies.

Graduate students and their work are an important part of an ongoing research process that provides the community with ways of understanding natural, cultural, imaginative, social and technological phenomena. Check out whygradstudies.ca for more reasons to choose graduate studies in engineering.

Why QUEEN’S?

Queen’s University is one of Canada’s leading research-intensive universities, with over $14 million in sponsored research funding and almost $5 million in revenues from technology transfer. It consistently ranks as one of the top three medical/doctoral universities in Canada and offers an unparalleled environment to facilitate academic development. Among Queen’s goals is to attract and retain students with outstanding potential from across Canada and around the world.

The Department of Chemical Engineering at Queen’s University is based in Dupuis Hall and the Biosciences Complex, which are multi-purpose facilities with extensive research laboratories, and large- and small-group teaching classrooms.

Program STRUCTURE

PhD (4 years): course work, research thesis, comprehensive exam, and two seminars.

RESEARCH Areas

- Bioengineering
- Clean Energy and Sustainable Environment
- Process Systems Engineering and Systems Biology
- Materials and Interfaces

We suggest that you review the specific research interests of individual faculty members to identify a potential supervisor. Please note, however, that contacting a faculty member does not guarantee acceptance and you will need to submit your full application in order to be considered.

Visit the Chemical Engineering Department website to read faculty profiles and learn more about faculty members’ research areas.
**Chemical Engineering PhD Map**

**DOCTOR OF PHILOSOPHY (PhD)**

### YEAR I

- Key priorities include forming your committee, coursework, field exams, and language exam.
- Meet early with your supervisor to set expectations and discuss roles, responsibilities, program requirements, resources, research, educational goals, timelines, and any required accommodation plans.
- Look to **Student Academic Success Services** for a variety of supports.
- Attend the Departmental Speaker Series (CHEE 897).

### YEAR II

- Write and defend your thesis proposal.
- Embrace your substantive research.
- Set up regular meetings with your supervisor to discuss progress and obstacles to timely completion.
- Find your way through the academic process with help from **Society of Graduate Students and Postdoctoral Affairs** professional development workshops.
- Seek experiential/professional development opportunities.
- Continue to meet regularly with your supervisor, review research progress, and write and submit your dissertation. Check out the **SGSPA** writing camps, or such as Dissertation on the Lake.
- Use conference presentations to create, discuss, and explore ways to disseminate research findings. Learn from the School of Graduate Studies and Postdoctoral Affairs professional development publishing workshops.

### YEAR III

- Present your work at graduate conferences.
- Expand your research audience through social media.
- Consider publishing elements of your research. Learn from the School of Graduate Studies and Postdoctoral Affairs professional development publishing workshop.
- Apply for the Graduate Dean’s Travel grant for Doctoral Field Research.
- Continue to present at conferences.
- Participate in the **1 Minute Thesis (1MT)** competition.
- Contact the Queen’s Media Centre for guidance on speaking to news outlets about your work. List yourself on the **Faculty of Engineering and Applied Science Research** website.
- Investigate internships from **MITACS** and other sources.
- Do some targeted networking with people working in careers of interest. Through Queen’s Connects on LinkedIn, the Queen’s Alumni Association, professional associations, and at conferences.
- Get help from a Career Services workshop.
- Consider joining professional associations like the **Canadian Society for Chemical Engineering**.
- Continue targeted networking with people working in careers of interest. Join groups on LinkedIn reflecting specific careers or topics of interest in Chemical Engineering.
- Build connections with faculty outside of your department. Pursue interviews for faculty positions and apply for post-doc fellowships and positions.
- Apply to jobs or make plans for other adventures. Get help from Career Services with job searching resumes, and interviews.

### YEAR IV

- Plan date of thesis submission for examination.
- Present your research to graduate ChemEng students and faculty or at conferences and work with supervisor to prepare for defence.
- Review submission and examination guidelines.
- Secure necessary oral defence accommodations.
- Discuss career pathways, reference letters, and publication options with your supervisor.

### WHAT WILL I LEARN?

A graduate degree in Chemical Engineering will empower you with:

- Knowledge and technical skills
- Effective communication skills
-ether audiences
- Information management: prioritize, organize and synthesize large amounts of information
- Time management: Meet deadlines and manage responsibilities despite competing demands
- Project management: develop ideas, gather information, analyze, critically appraise findings, draw and act on conclusions
- Creativity and innovation
- Perseverance
- Independence and experience as a collaborative worker
- Awareness, an understanding of sound ethical practices, social responsibility, responsible research and cultural sensitivity
- Professionalism in all aspects of work, research, and interactions
- Leadership, initiative and vision leading people and discussion

### WHERE CAN I GO?

A PhD in Chemical Engineering can take your career in many directions. In Canada, less than 40% of all PhDs will work in post-secondary education - the majority will work in industry, government, or non-profits. Graduates from the Chemical Engineering PhD program have found careers in:

- **Biochemical Engineering**
- **Biomedical Engineering**
- **Environmental Engineering**
- **Fuel Cells**
- **Macromolecular Processes and Products**
- **Microfluidics & Biosensors**
- **Process Systems Engineering**

Taking time to explore career options, build experience, and network can help you have a smooth transition to the world of work after graduation.

---

*How to use this map*

Use the 5 rows of the map to explore possibilities and plan for success in the five overlapping areas of career and academics. The map just offers suggestions – you don’t have to do it all! To make your own custom map, use the My Major Map tool.

*© Career Services, Queen’s University, 2022-2023*
Graduate Studies FAQs

How do I make the most of my time at Queen’s?

Use the Grad Map to plan for success in five overlapping areas of your career and academic life. Everyone’s journey is different - the ideas on the maps are just suggestions to help you explore possibilities. For more support with your professional development, take advantage of the SGSPA professional development framework and the new Individual Development Plan (IDP) process to set customized goals to help you get career ready when you graduate.

Where can I get help?

Queen’s provides you with a broad range of support services from your first point of contact with the university through to graduation. Ranging from help with academics and careers, to physical, emotional, or spiritual resources – our welcoming environment offers the programs and services you need to be successful, both academically and personally. Check out the SGSPA website for available resources.

What is the community like?

At Queen’s, graduate students from all disciplines learn and discover in a close-knit intellectual community. You will find friends, peers and support among the graduate students enrolled in Queen’s more than 130 graduate programs within 50+ departments & research centres. With the world’s best scholars, prize-winning professional development opportunities, excellent funding packages and life in the affordable, historic waterfront city of Kingston, Queen’s offers a wonderful environment for graduate studies. Queen’s is an integral part of the Kingston community, with the campus nestled in the core of the city, only a 10-minute walk to downtown with its shopping, dining and waterfront. For more about Kingston’s history and culture, see Queen’s University’s Discover Kingston page.

Application FAQs

What do I need to know to APPLY?

ACADEMIC REQUIREMENTS
- Master of Applied Science or Master of Science.
- Grade requirements: minimum cumulative average of B+, with a minimum of 77% in last year of study.

ADDITIONAL REQUIREMENTS
- If English is not a native language, prospective students must meet the English language proficiency requirements in writing, speaking, reading, and listening. The following minimum scores are required: (1) TOEFL iBT: Writing (24/30); Speaking (22/30); Reading (22/30); Listening (20/30). Applicants must have the minimum score in each test as well as the minimum overall score, or (2) IELTS: 7.0 (academic module overall band score and a 7.0 for each test band), or (3) PTE Academics: 65, or (4) CAEL CE -70 (minimum overall score).

KEY DATES & DEADLINES
- Application deadline: There is a constant intake so there is no set deadline for application. If you are international, we recommend that you have completed your application at least 4 months ahead of your admission cycle.

Before you start your application, please review the Graduate studies application process.

What about FUNDING?

The level of financial support consequently varies among graduate students in the Department, with a guaranteed minimum level of $25,000 (Masters and PhD) for 2022-2023. As part of the minimum funding package, you may serve as a Teaching Assistant for at least one term per year.

We encourage all students to apply for external funding from OGS, NSERC and other sources. Queen's will automatically issue a one time $10,000 award to incoming PhD students who have won federal government tri-council awards. For more information, see the School of Graduate Studies and Postdoctoral Affairs’ information on awards and scholarships.
