Jump Start Your Research Career in Economics

A PhD from Queen’s Economics Department gives you and outstanding foundation for a research-oriented career in academia, government or international institutions. Our department has a distinguished history, ranks among the top in research departments in Canada, and is highly regarded internationally.

We prepare you for starting a successful career in economics research following the path of our many distinguished graduates.

Why GRADUATE STUDIES IN ECONOMICS?

The department provides a medium sized program which allows students to study in an open atmosphere with direct access to internationally renowned faculty.

Students have access to excellent data and computing facilities as well as a dynamic research environment with 3 weekly seminar series and an extensive visiting scholar program.

Visit the Economics Department website to read faculty profiles and learn more about faculty members’ research areas. Typically, Economics PhD students find a supervisor after joining the PhD program and in the course of taking their first and second year courses, during which most students percolate towards a specific area of research interest.

“Professors are as approachable as they are knowledgeable. They will always leave their doors open for you to discuss research ideas, and provide professional feedback on research projects.”

– Ke Xu, University of Victoria, (PhD 2017)
