Why GRADUATE STUDIES in HEALTH QUALITY?

The PhD in Health Quality (PhDHQ) will prepare experts who will improve the delivery of healthcare through teaching, developing new methodologies and theoretical frameworks, as well as testing innovation in the field of health quality. The PhDHQ program offers a collaborative approach to comprehend and address the complexities within the healthcare system. Graduates of the program will be prepared to take senior leadership roles in health quality portfolios in practice and policy settings across Canada and will also be educated to assume tenure track positions in university programs. While the degree is research intensive, it will also be grounded in pragmatism and will help prepare independent researchers for quality improvement research and developing leadership capabilities in health settings.

The PhDHQ program is a four (4) year, interdisciplinary program using a combination of synchronous and asynchronous study using interactive online videoconferencing. The PhDHQ program consists of five (5) courses in year one, including an internship over the summer months. The internship will be tailored to the learners’ interests and to broadening their perspectives on health quality. Students will complete their written comprehensive exam remotely during year two (2). In the winter and summer terms of year two (2) students will focus on their PhD thesis, and complete HQRS 905 Current Topics in Health Quality.

Who should APPLY?

A PhD degree in Health Quality can take your career in many directions. Our students come from varied backgrounds including but not limited to:

- Law
- Engineering
- Healthcare
- Business
- Administration
- Policy advisors
- Healthcare information technologists (IT)

Required COURSES

- HQRS 900: Philosophy of Health Quality Science
- HQRS 901: Research and Theory of Change Management and Leadership
- HQRS 902: Qualitative Methods for Research in Health Quality
- HQRS 903: Advanced Quantitative Research Methods for Health Quality
- HQRS 904: Internship in Health Quality
- HQRS 905: Current Topics in Health Quality
- HQRS 999: Thesis

Program OBJECTIVES

- Prepare health quality professionals for leadership roles in practice, education and research
- Provide learners with skills to apply theoretical and practical knowledge of health quality, risk and safety to enhance safer healthcare for Canadians
- Integrate theoretical and practical opportunities for learners to ensure graduates have acquired applied skills in quality, risk and safety
- Ensure learners can articulate policy and legislative responsibilities and accountabilities for safer healthcare for Canadians
- Support learners to apply for grants and awards to support research in health quality, risk and safety

### ACHIEVE YOUR ACADEMIC GOALS

- Priorities include completing your comprehensive examination and pursuing substantive research.
- Set up regular meetings with your supervisor to discuss progress and obstacles to timely completion.
- Seek experiential/professional development opportunities.

### MAXIMIZE RESEARCH IMPACT

- Think about audiences for your research.
- Complete the CORE online module on research ethics if doing research with living people or sensitive topics.
- Apply to the ChSR, NSERC, OGS, and other funding.
- Attend conferences in your field.

### BUILD SKILLS AND EXPERIENCE

- Serve on departmental, faculty or university committees.
- Talk to the graduate representatives for tips on getting involved.
- Consider positions in student services, the GSG, or media outlets like the Queen's Journal, CFRC, and the Queen's Blog.

### ENGAGE WITH YOUR COMMUNITY

- Consider volunteering with different community organizations, such as Kingston Health Sciences Centre.
- Explore how you can connect with your community through experiential opportunities on- and off-campus.
- Follow #QueenHQ on Twitter, LinkedIn, and Instagram.

### LAUNCH YOUR CAREER

- Finding a career that fits starts with knowing yourself.
- Take a Career Services workshop or meet with a career counselor for help.
- Start building your teaching portfolio including student evaluations, and seeking mentorship.
- Participate in hiring committees and attend job talks. Research academic careers of interest.

### WHAT WILL I LEARN?

A graduate degree in Health Quality can equip you with valuable and versatile skills, such as:

- Knowledge and technical skills
- Effective communication skills in multiple forms for diverse audiences
- Information management: prioritize, organize, and synthesize large amounts of information
- Time management: meet deadlines and manage responsibilities despite competing demands
- Project management: develop ideas, gather information, analyze, critically appraise findings, draw and act on conclusions
- Creativity and Innovation
- Perseverance
- Independence and experience as a collaborative worker
- Awareness, an understanding of sound ethical practices, social responsibility, responsible research and cultural sensitivity
- Professionalism in all aspects of work, research, and interactions
- Leadership: initiative and vision leading people and discussion
- Interprofessional Education foundations

### WHERE CAN I GO?

The PHDHQ program will prepare graduates to pursue careers and/ or leadership positions such as:

- Faculty positions
- Clinical scientists
- Clinicians with the mandate to lead quality improvement in health organizations
- Health quality researchers in business, not for profit agencies, hospitals, policy, healthcare insurance and accreditation, and government agencies

Application FAQs

What do I need to know to APPLY?

ACADEMIC REQUIREMENTS
Applicants who have a project based or thesis based research master’s degree in health, health-related law, business, architecture, or engineering will be eligible to apply for admission. Potential applicants who have course-based master’s degrees or degrees in other disciplines are encouraged to discuss the suitability of the degree with the Associate Director (Health Quality Programs) prior to applying.

The overall grade point average required is B+ at the master’s level as per the School of Graduate Studies’ regulation.

Applicants from under-represented groups will be encouraged to apply and specific recruitment will be targeted to ensure the applicant pool reflects the population of Canada. As the program will be offered in a hybrid format, access to the program is unlikely to be a barrier as students will be required to be on campus for one-week periods at select times over the four years.

ADDITIONAL REQUIREMENTS
• A statement of interest in the program is required to match the applicant’s academic and work experience with the objectives of the program.
• Current curriculum vitae.
• If English is not a native language, prospective students must meet the English language proficiency requirements in writing, speaking, reading, and listening. The following minimum scores are required: (1) TOEFL iBT: Writing (24/30); Speaking (22/30); Reading (22/30); Listening (20/30). Applicants must have the minimum score in each test as well as the minimum overall score, or (2) IELTS: 7.0 (academic module overall band score and a 7.0 for each test band), or (3) PTE Academics: 65, or (4) CAEL CE -70 (minimum overall score).

KEY DATES & DEADLINES
• Application deadline: February 1.

Before you start your application, please review the Graduate studies application process.

What about FUNDING?
Financial support to students admitted to the PhDHQ program may be offered based on demonstration of financial need. Funding packages for graduate students can be used to pay tuition fees, travel, living expenses, books, and costs associated with the internship.

Students must have requested financial support upon their initial application for admission to a Queen's doctoral program in order to be eligible. It is assumed that the information provided in terms of a Yes or No in response to the query ‘Do you require financial support from Queen's University’ applies throughout the student’s academic program.

For more information regarding funding packages, please visit the Healthcare Quality PhD program website.

All questions pertaining to tuition and fees should be directed to the Queen's University Registrar’s Office at fees@queensu.ca or by phone at (613) 533-2040.
