Chemistry explores the composition, structure, and transformation of matter. Frequently called the central science, it provides the basis for studies in many other disciplines, ranging from biology to materials science, in addition to being a booming discipline of its own.

**TOP 5 Reasons To Study Chemistry**

1. Chemistry opens very broad career options.
2. With extensive experimental training, Chemistry studies are very hands-on and fun!
3. Queen's Chemistry Department is a very supportive and nurturing environment; our graduating class is small and close-knit.
4. All major and specialization students conduct research in fourth year as part of their plan.
5. Queen's Chemistry programs are accredited by the Canadian Society for Chemistry.

**TOP ALUMNI JOBS**

- 10% of alumni work in **GOVERNMENT**
- 11% of alumni work in **HEALTH & MEDICINE**
- 14% of alumni work in **RESEARCH & DEVELOPMENT**
- 32% of alumni work in **EDUCATION**

**Alumni story**

Not too long ago, Jenny Du was a student at Queen's. Now she's living the California lifestyle at a cool startup. As the Director of Extraction, Jenny works with a team at Apeel Sciences to use natural plant extracts to formulate edible coatings that work to extend the shelf-life of fresh produce.

**Acquire Skills. Gain Experience. Go Global.**

That is a degree from Queen's.

Chemistry MAJOR MAP

BACHELOR OF SCIENCE (HONOURS): SPECIALIZATION, MAJOR, MINOR

GET THE COURSES YOU NEED

1ST YEAR
- In first year you will have the chance to explore the foundations of Chemistry in biology, chemistry, geography and geology along with some electives.
- Attend Majors Night in the Winter term to learn more about Plan options.

2ND YEAR
- Start going deeper into the discipline of Chemistry, while considering a minor and/or certificate such as French for Professionals. Attend Degree in the Fall term to learn more about Certificates and Internship options.
- Want to make sure your academics are where you want them to be? Visit PASS Student Academic Support Services and the Writing Centre for some help.

3RD YEAR
- A chance to start grouping courses in areas of interest, or to keep it more general and explore many areas of Chemistry. Meet with an Academic Advising to make sure you are on track and have planned out your courses for next year.

4TH OR FINAL YEAR
- In fourth year you will have the chance to participate in research based courses that can lead to Graduate School or to your future career path. Make sure to finish up all your courses for your major and your optional minor and/or certificate(s).

GET RELEVANT EXPERIENCE

Join clubs on campus such as Let’s Talk Science, Women in Science and Engineering or the Undergraduate Science Case Competition.

Consider entrepreneurial opportunities via programs like the Queen’s Innovation Connector Summer Initiative (QICSI).

GET CONNECTED WITH THE COMMUNITY

Volunteer on or off-campus with community organizations such as Science Rendezvous.

Consider joining an intramural sports or an athletic team. Check out the Athletics and Recreation site

GET THINKING GLOBALLY

Prepare for work or studies in a multi-cultural environment by taking QUCI’s Intercultural Competency Certificate, and research possible immigration regulations.

Speak to a QUC advisor to get involved in their programs, events, and training opportunities.

GET READY FOR LIFE AFTER GRADUATION

Grappling with program decisions? Go to Majors Night or get some help wondering about Career options, from Career Services. Attend departmental information sessions on Plan selection (March).

Explore different careers of interest by reading books in the Career Services Information Area, such as the Chemistry Careers. For more information check out Career Cruising or by finding and connecting with alumni on LinkedIn

What will I learn?
- A degree in Chemistry can equip you with:
  - Academic and technical skills to conduct research, understand scientific journal articles, trouble-shooting, clearly explain and interpret research data.
  - Organizational skills to compile, organize and maintain accurate records.
  - Ability to operate laboratory equipment and to employ appropriate scientific lab techniques.
  - Proficiency in mathematical and logical analysis.
  - Sensitivity to the health and safety of others - safe handling, storage and disposal of hazardous chemicals.
  - Written and oral communication skills to present and present reports from research ideas and information using current technology.
  - Team working in a multidisciplinary context.
  - Practical and fundamental knowledge of all subdisciplines of chemistry.

Where can I go?
- A degree in Chemistry can take your career in many directions. Many students choose to continue their academic inquiry with a Master's. Our students are equipped with a strong foundation for careers in:
  - Environmental research
  - Forensic science
  - Environmental sustainability
  - Materials science
  - Patent law
  - Pharmaceutical Research
  - Public health
  - Quality control
  - Sustainability design

Tackling the time to explore career options, build experience and network can help you have a smooth transition to the world of work after graduation.

How to use this map
Use the 5 rows of the map to explore possibilities and plan for success in the five overlapping areas of career and academics. The map just offers suggestions – you don’t have to do it all! To make your own custom map, use the My Major Map tool.
Get started thinking about the future now – where do you want to go after your degree? Having tentative goals (like careers or grad school) while working through your degree can help with short-term decisions about courses and experiences, but also help you keep motivated for success.

Get the help you need

Queen’s provides you with a broad range of support services from your first point of contact with the university through to graduation. At Queen’s, you are never alone. We have many offices dedicated to helping you learn, think and do.

Ranging from help with academics and careers, to physical, emotional, or spiritual resources – our welcoming living and learning environment offers the programs and services you need to be successful, both academically and personally. Queen's wants you to succeed! Check out the Student Affairs website for available resources.

Why study in Kingston?

For 175 years, our community has been more than a collection of bright minds – Queen’s has attracted students with an ambitious spirit. Queen's has the highest retention rates, the highest graduation rates, and one of the highest employment rates among recent graduates. We are a research intensive university focused on the undergraduate experience. The BBC has identified Kingston as one of the GREATEST UNIVERSITY TOWNS in the world – and it is often awarded the safest city in Canada. It is a university city at the core; just a quick drive to Toronto, Montreal, Ottawa and even New York. A university with more clubs per capita than any other university in Canada, and a city with more restaurants per capita than any other city in North America – you will have the experience of a lifetime at Queen’s – and graduate with a degree that is globally recognized among the best.
