CONSECUTIVE EDUCATION

Consecutive Education at Queen’s is a program for those who are interested in becoming educators in the classroom or working in other fields as educators. The Bachelor of Education program provides university graduates with a second bachelor’s degree. The Diploma in Education is for those who are without a university degree, college diploma or certificate of qualification, have experience in a broad-based technology area and are interested in teaching Technological Education in grades 9 to 12. The Consecutive Education program is completed in 4 successive terms, starting in May and ending in August the following year, which enables our graduates to be out in the job market by September.

Program OPTIONS

Bachelor of Education
All Queen’s teacher candidates graduate with a specialization. You can apply directly to program tracks in Artist in Community Education, Indigenous Teacher Education, Primary-Junior French as a Second Language and Outdoor and Experiential Education. Or, after you start the program, you can form a concentration in areas such as at-risk children, exceptional learners, educational technology, environmental education or international education. To graduate with a concentration, you combine two courses with a related alternative practicum placement.

Diploma in Education
Candidates in Technological Education choose from broad-based technology areas such as Computer Technology, Construction Technology, Hairstyling and Aesthetics, Hospitality, and more.

Course HIGHLIGHTS

All students take courses about teaching and curriculum, planning for learning, assessment and evaluation, professional teaching practice, equity, inclusivity and special education, psychology, Indigenous education, environmental education, educational technology, history, career development, philosophy and social justice. These courses will allow you to critically reflect on how you will practice as an educator.

Teaching and Alternative PRACTICA

Teacher candidates complete 18 weeks of practicum placements, including three weeks in the first summer, seven weeks in the fall, four weeks in the winter, and four weeks in the second summer term.

Primary-Junior candidates will obtain experience in both primary (grades JK-3) and junior (grades 4-6) classrooms, and Intermediate-Senior candidates will obtain experience in at least one of their teaching subjects and in both the intermediate (grades 9-10) and senior (grades 11-12) levels.

Alternative practicum placements are completed outside the typical public school setting, and this breadth of experience is an advantage to Queen’s teacher candidates. The placements can be done anywhere in the world. Queen’s also offers funding to support teacher candidates in gaining international experience.

Our graduates are out into the job market a year earlier, as our program is offered over four successive terms.

Intermediate-Senior TEACHING SUBJECTS

Candidates in the Intermediate-Senior program option choose two of the following teaching subjects:
- Dramatic Arts
- English
- First Nations, Métis and Inuit Studies
- French as a Second Language
- Geography
- History
- Mathematics
- Music - Instrumental or Vocal
- Science - Biology
- Science - Chemistry
- Science - Physics
- Visual Arts

That is a degree from Queen’s.

Why study in Kingston?

For over 175 years, our community has been more than a collection of bright minds – Queen’s has attracted students with an ambitious spirit. Queen’s has the highest retention rates, the highest graduation rates, and one of the highest employment rates among recent graduates. We are a research intensive university focused on the undergraduate experience. The BBC has identified Kingston as one of the GREATEST UNIVERSITY TOWNS in the world – and it is often awarded the safest city in Canada. It is a university city at the core - and it’s just a quick drive to Toronto, Montreal, Ottawa and even New York.

A university with more clubs per capita than any other university in Canada, and a city with more restaurants per capita than any other city in North America – you will have the experience of a lifetime at Queen’s – and graduate with a degree that is globally recognized among the best.
