Grads And Current Students' Comments

"I got to see drama at work in a number of different capacities, so not only traditional acting or behind the scenes work in terms of production or technical, but actually administratively where you're actually going to deal with education, how that interacts with theatre. When you get to see drama used in those different ways, you really realize that you know there is a whole world surrounding these things and a number of different opportunities."

- Radissen Ramoutar

"I am super thankful for Queen's drama as I was not only able to grow my knowledge in theatre production, but also develop a keen interest in theatre research. This interest was greatly supported by faculty through research assistant work, supervision on a directed study, and numerous opportunities to present my research throughout Queen's. With the exceptional research support and expertise from faculty, I was able to establish key skills that I will carry with me into my master's work in the fall."

- Bethany Shaufler-Biback

"Some of my favourite things about the DAN School is the camaraderie between all of the students, both in the Music department and the Drama department, and the new Music Theatre students as well. It was so nice to be able to mingle with all of the classes and explore different strengths we may not know that we had - in practical classes, or academic sides of it, and really getting to learn about niche interests, all with the help of our amazing professors."

- Maysaa Alikhan
