## **Economics**

What determines the prices of goods and services? How do individuals decide how much to spend and save? How can government policies help reduce environmental pollution? These are questions we all face every day. Economics is our attempt to analyze and understand them. Often seen as being all about money, at its more basic level, economics is concerned with the material well-being of human societies.

# Reasons to study Economics

- Study in one of the top research departments in Canada.
- 2 Develop research, analytical, leadership, and creative thinking skills.
- Eearn how to address complex local, national, and international economic problems.
- Learn how to apply appropriate quantitative methods to a range of economic issues.
- 5 Develop a deeper understanding of the economy and the world around you.

#### Alumni Story

David Card earned his BAH in Economics at Queen's. He has made fundamental research contributions on the impacts of immigration on labour market wages, unemployment, job training, and inequality. #### What will I learn?

A degree in Economics can equip you with:

- Technical skills for collecting economic data and applying statistical analysis and modelling techniques
- Understand the impact of policies, interest rates, productivity, savings, investment, and other economic factors on countries, firms, and individuals
- Theoretical frameworks in micro and macroeconomics and econometrics
- Proficiency in mathematics
- Oral and written communication to analyze empirical and theoretical content, create technical and non-technical reports, and present information to a group
- Research skills to analyze information, test hypotheses, impose intellectual discipline, and isolate relevant evidence
- Logical reasoning to systematically approach complex problems, identify important assumptions, and focus on causal factors

#### Where can I go?

A degree in Economics can take your career in many directions. Many students choose to continue their academic inquiry with a Master's. Our students are equipped with a strong foundation for careers in:

- Accounting
- Business administration
- · Credit management
- Finance
- Insurance
- Investment analysis
- Monetary/fiscal policy
- Risk management
- Strategic Planning

Taking time to explore career options, build experience and network can help you have a smooth transition to the world of work after graduation.

## **Economics**

Get started thinking about the future now – where do you want to go after your degree? Having tentative goals (like careers or grad school) while working through your degree can help with short-term decisions about courses and experiences, but also help you keep motivated for success.
