Society has become more aware of the seriousness of the environmental problems we face. Yet, at the same time, we have realized that the solutions are not simple. To work towards environmental sustainability, people need to understand the multi-disciplinary nature of environmental problems. They need to have expertise in planning, policy and many other fields in addition to scientific principles to deal with the social, economic and cultural complexities that surround environmental issues.

**ALUMNI JOBS**

Graduates of this program can pursue jobs in the private sector, government, and non-government organizations, as well as post-graduate studies.

Interdisciplinary training leads to opportunities in research, consulting, policy development and projects working on specific problems.

Many will continue to professional degrees in law, planning, business and public administration.

**2022-23 Plan Thresholds**

Thresholds are made on a competitive basis and are updated annually. To see the thresholds for all programs as well as the latest information, please visit quartsci.com/planselection

**TOP 5 Reasons to study Environmental Studies**

1. Dive in to messy, real-world problems. See academic knowledge in action, whether on campus or globally.
2. Gain transferable skills that employers want, while learning how to prepare arguments and solve problems.
3. Help create the future world in which you want to live.
4. The best way to find solutions: combining both the arts and the sciences.
5. Research-focused courses in upper years contribute to projects happening across Canada and around the world.

**Add a Certificate**

- Data Analytics
- Disability and Physical Activity
- Employment Relations
- Entrepreneurship, Innovation and Creativity
- French for Professionals
- Geographic Information Science
- Global Action and Engagement
- Indigenous Languages and Cultures
- International Studies
- Media Studies
- Sexual and Gender Diversity
- Urban Planning Studies

How to use this map

Use the 5 rows of the map to explore possibilities and plan for success in the five overlapping areas of career and academics. The map just offers suggestions – you don’t have to do it all! To make your own custom map, use the My Major Map tool.

2022-2023
Environmental Studies MAJOR MAP

BACHELOR OF ARTS (HONOURS): MAJOR, JOINT HONOURS, MINOR

GET THE COURSES YOU NEED

1ST YEAR

In first year you will take Environment and Sustainability, and you’ll have the chance to explore the foundations of Environmental Science in biology, geography and geology along with some electives. Attend Majors Night in the Winter term to learn more about Plan options.

GET RELEVANT EXPERIENCE

2ND YEAR

Start going deeper into the discipline of Environmental Science, while considering a minor and/or certificate such as Global Action, and Engagement. Attend Degree 2 in the Fall term to learn more about Certificates and Internship options. Want to make sure your academics are where you want them to be? Visit SASS (Student Academic Support Services) and the Writing Centre for some help.

GET CONNECTED WITH THE COMMUNITY

3RD YEAR

A chance to start grouping courses in areas of interest, or to keep it more general and explore many areas of Environmental Science. Meet with an Academic Advisor to make sure you are on track and have planned out your courses for next year.

GET THINKING GLOBALLY

4TH OR FINAL YEAR

In fourth year you will have the chance to participate in research-based courses that can lead to Graduate School or to your future career path. Make sure to finish up all your courses for your major and your optional minor and/or certificate(s).

GET READY FOR LIFE AFTER GRADUATION

What will I learn?
A degree in Environmental Studies can equip you with:

• Interdisciplinary perspective to understand environmental topics from a scientific, philosophical and ethical point of view
• Understand natural and human factors related to environmental problems
• Knowledge of local, national, and global environmental problems and issues
• Analytical skills to analyze data for trends and apply statistical tests
• Ability to interpret data from scientific experimentation and make conclusions based on research
• Critical thinking to form, defend, and evaluate arguments and propose solutions
• Oral and written communication to create reports and give presentations
• Teamwork to work as a team on a long-term project
• Resource and time management

Where can I go?
A degree in Environmental Studies can take your career in many directions. Many students choose to continue their academic inquiry with a Master’s or professional degree.

• Consider joining professional associations like the Ontario Environment Industry Association and the Canadian Institute for Environmental Law and Policy. Join groups on LinkedIn reflecting specific careers or topics of interest in Environmental Studies.
• Do targeted networking with alumni working in careers of interest by joining the LinkedIn group Queen’s Connects. Check out Career Services networking workshops.

What can I do?

• International students interested in staying in Canada can speak with an International Student Advisor.
• Apply to jobs or future education, or make plans for other adventures. Get help from Career Services with job searching, resumes, interviews, Grad School applications, or other decisions.

Prepare for work or studies in a multi-cultural environment by taking QUIC’s Intercultural Competency Certificate, and research possible immigration regulations.

Speak to a QUIC advisor to get involved in their programs, events, and training opportunities.

Environmental assessment
• Parks and natural reserves
• Meteorology
• Resource management
• Environmental policy and governance
• Environmental legislation
• Water policy and governance
• Waste management
• Environmental planning

What can I do?
Environmental Studies

Get started thinking about the future now – where do you want to go after your degree? Having tentative goals (like careers or grad school) while working through your degree can help with short-term decisions about courses and experiences, but also help you keep motivated for success.

Get the help you need
Queen's provides you with a broad range of support services from your first point of contact with the university through to graduation. At Queen's, you are never alone. We have many offices dedicated to helping you learn, think and do. Ranging from help with academics and careers, to physical, emotional, or spiritual resources – our welcoming living and learning environment offers the programs and services you need to be successful, both academically and personally. Queen's wants you to succeed! Check out the Student Affairs website for available resources.

Why study in Kingston?
For 175 years, our community has been more than a collection of bright minds – Queen's has attracted students with an ambitious spirit. Queen's has the highest retention rates, the highest graduation rates, and one of the highest employment rates among recent graduates. We are a research intensive university focused on the undergraduate experience. The BBC has identified Kingston as one of the GREATEST UNIVERSITY TOWNS in the world – and it is often awarded the safest city in Canada. It is a university city at the core; just a quick drive to Toronto, Montreal, Ottawa and even New York. A university with more clubs per capita than any other university in Canada, and a city with more restaurants per capita than any other city in North America – you will have the experience of a lifetime at Queen's – and graduate with a degree that is globally recognized among the best.
