

Nursing

Get to know **NURSING**

There has never been a more exciting time to consider a Bachelor of Nursing Science degree! Nurses are among the most in-demand professionals in the health care environment. Along with enjoying a high degree of respect and trust from the public, students who graduate with a BNSc degree from Queen's enjoy a high employment rate both internationally and across Canada.

This professional degree program qualifies graduates to apply to the regulatory body of the province in which they plan to work, to secure registration to practice with the title "Registered Nurse". Our philosophy is that exemplary nursing practice is built upon the foundational blocks of both the sciences and arts. You will get to know faculty and your peers well, as our smaller class sizes and group settings allow for community building, mentorship, and collaboration. Students learn how to care for patients and their families in various settings, such as hospitals, long-term care, clinics, and the community. You will also engage in collaborative and team building opportunities with students from other Faculty of Health Sciences programs. Upper year students may also choose to complete their elective courses at Herstonceux Castle during one spring session. Furthermore, Queen's BNSc degree options not only prepare you to become a capable practitioner in health care, but they also build a foundation for future graduate studies.

Degree **OPTIONS**

Bachelor of Nursing Sciences (4 Years)
123 credits

Bachelor of Nursing Sciences Accelerated Standing Track - AST (2 years) *
90 credits

There are a number of pathways that applicants may apply under, including **Equity Admission Self-Identification**, **Admission Pathway for Indigenous Students**, and the **First Generation Pathway** (for students whose parents did not attend post-secondary).

*Please note the AST program is only for those with previous

Queen's Nursing empowers our graduates to be health leaders and advocates

university education. For more information on the AST program please see page three of this Major Map.

Queen's **ADMISSIONS**

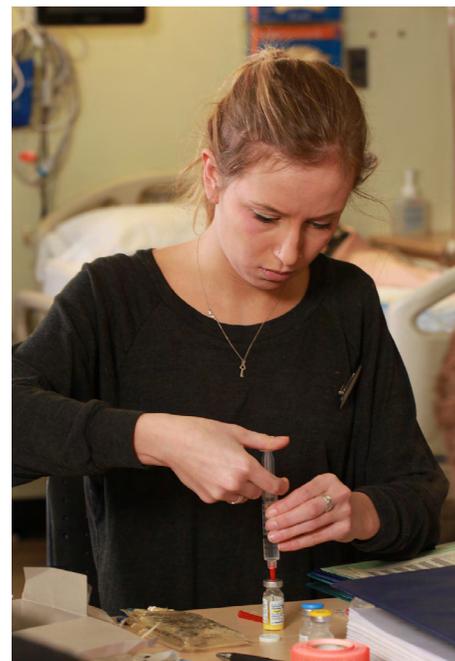

Those applying to Queen's nursing from high school will do so through the OUAC (Ontario University Application Centre) website. Secondary School prerequisites include English 4U, Biology 4U, Chemistry 4U, and a 4U Mathematics course. Two additional U or M level courses are also required. A minimum grade of 75% is necessary in English 4U. Applicants outside of Ontario may have additional requirements. Applicants with previous university education looking to apply to the Accelerated Standing Track BNSc should follow the admissions process outlined on our [website](#).

Course **HIGHLIGHTS**

The School of Nursing emphasizes an inter-professional approach to education. Nursing students will have the chance to work with students from across the Faculty of Health Sciences and interact with a variety of health professionals. All Queen's Nursing students receive instruction and practicums in the following areas:

- Children's health and family centered care
- Maternity
- Acute and/or chronic care
- Mental Health

Students may apply for a final practicum anywhere in Canada.

- Community health promotion

Acquire Skills. Gain Experience. Go Global.
That is a degree from Queen's. nursing.queensu.ca

2021-2022 Nursing MAJOR MAP*

BACHELOR OF NURSING SCIENCE

Employability skills

Your time at Queen's will give you valuable skills to boost your employability, including:

MAJOR MAP

How to use this map

Use the 5 rows of the map to explore possibilities and plan for success in the five overlapping areas of career and academics. The map just offers suggestions – you don't have to do it all! To make your own custom map, use the My **Major Map** tool.

Get started thinking about the future now – where do you want to go after your degree? Having tentative goals (like careers or grad school) while working through your degree can help with short-term decisions about courses and experiences, but also help you keep motivated for success.

Get the help you need

Queen's provides you with a broad range of support services from your first point of contact with the university through to graduation. At Queen's, you are never alone. We have many offices dedicated to helping you learn, think and do.

Ranging from help with academics and careers, to physical, emotional, or spiritual resources – our welcoming living and learning environment offers the programs and services you need to be successful, both academically and personally. Queen's wants you to succeed! Check out the **Student Affairs website** for available resources.

Accelerated Nursing Track

Are you considering a career in nursing and have previous university education?

Enrolled in a university level program and looking to transfer to a nursing degree?

- ✓ Same degree
- ✓ Same courses
- ✓ Same clinical hours

For students with **10 full-year University courses and certain prerequisites.**

Two calendar years in length including two summers.

The Bachelor of Nursing Science - Accelerated Standing Track gives you the opportunity to build on your previous education to get a head start on your nursing career. Clinical placements start in the winter term of your first year. You will have a placement in children's health, maternity, mental health and with acute and chronic care adults. You will have clinical placements caring for patients of all ages and stages in life, in hospitals, public health clinics and community agencies.

See nursing.queensu.ca/undergraduate/AST for program details and admission requirements.

Why study in Kingston?

For over 175 years, our community has been more than a collection of bright minds – Queen's has attracted students with an ambitious spirit. Queen's has the highest retention rates, the highest graduation rates, and one of the highest employment rates among recent graduates. We are a research intensive university focused on the undergraduate experience. The BBC has identified Kingston as one of the GREATEST UNIVERSITY TOWNS in the world – and it is often awarded the safest city in Canada. It is a university city at the core; just a quick drive to Toronto, Montreal, Ottawa and even New York. A university with more clubs per capita than any other university in Canada, and a city with more restaurants per capita than any other city in North America – you will have the experience of a lifetime at Queen's – and graduate with a degree that is globally recognized among the best.

We're closer than you think.
