Why GRADUATE STUDIES in AGING AND HEALTH?

Graduate studies in Aging and Health are offered through innovative programs that provide participants with a comprehensive understanding of aging, with a focus on health and healthy living. Students will develop multi-disciplinary knowledge of individual aging processes, the effect of aging on social systems, and the policies needed to support healthy aging. The program is meant to enhance students’ ability to contribute to the development, delivery and implementation of evidence-based care, services, and policies for older adults across a range of settings.

Why QUEEN’S?

The program is full-time and is completed from a distance, through a blended format of on-line and in-person learning. Intensive on-site sessions introduce students to core courses and e-learning technology, as well as provide an opportunity for in-person interaction with faculty and fellow class members. Elective courses are completed at a distance, on-line. The blended format of on-site intensives and on-line components couples networking and experiential opportunities with the flexibility of distance learning.

Program STRUCTURE

MSc (12 months): Seven term courses (three core and four electives), plus a project.
GDip (8 months): Five term courses (two core courses and 3 electives).

Core COURSES

- Evaluating Aging-Related Programs and Services
- Ethics and Biomedical Ethics of Aging
- Normal Aging Processes

Students in the MSc program will complete a project that develops skills for critical appraisal and integration of evidence to address a defined question related to aging and health.

Visit the Aging and Health website to learn more about the program and its opportunities.
**GETTING STARTED**

- Start with key priorities like doing your coursework and preparing for your project.
- Determine your elective courses.
- Find your way through the academic process with help from departmental and Expanding Horizons professional development workshops, the department Grad Chair and the SGS Habitat.

**MAXIMIZE SCHOLARLY IMPACT**

- Start to think about the audiences for your project.
- If you will be continuing graduate studies, apply for funding from sources such as CIHR, SSHRC, NSERC, OGS, the Heart Stroke Foundation, and other foundations related to your area of research.

**BUILD SKILLS AND EXPERIENCE**

- Consider positions in student services, the SGPS, or media outlets like the Queen's Journal, CFRC and the SGS Blog. Look in the AMS Clubs Directory for more ideas.
- Serve on departmental, faculty or university committees. Talk to the program director or assistant for tips on getting involved.
- Check out professional development workshops from Expanding Horizons.

**ENGAGE WITH YOUR COMMUNITY**

- Explore how you can connect with your community through experiential opportunities on- and off-campus.
- Consider volunteering or working with local community organizations that are focused on supporting healthy aging and aging in place.

**PROPEL YOUR CAREER**

- Finding a career that fits: starts with knowing yourself. Get help by taking a Career Services career planning workshop or meeting with a career counsellor. Check out books like So What Are You Going to Do With That? or Planning a Scientific Career in Industry from the Career Resource Area for advice on various career options.
- Start reading publications like University Affairs and the Chronicle of Higher Education. Browse non-academic labour market websites. Stay on the lookout for special events like School of Graduate Studies Career Week to explore your career pathways.
- Check admission test deadlines if needed for further studies.

**INTERMEDIATE STAGE**

- Complete your coursework.
- Begin to do research for your major project.

**WRAPPING UP**

- Complete your course work and project.
- Attend a major conference in your field, such as the annual conference of the Canadian Association on Gerontology.
- Practice articulating the skills you have been developing in settings outside the university, such as casual conversation, networking, and interviews. Get help from a Career Services workshop.

**WHAT WILL I LEARN?**

A professional degree in Aging and Health can equip you with:

- Knowledge and technical skills
- Effective communication skills in multiple forms for diverse audiences
- Ethical approaches to research and practice with older adults
- Time management skills to meet deadlines and manage responsibilities despite competing demands
- Project management skills to develop ideas, gather information, analyze, and critically appraise findings, draft and act on conclusions
- Creativity and innovation
- Independence and experience as a collaborative worker
- Professionalism in all aspects of work, research, and interactions
- Leadership skills to take initiative and lead discussions and influence people.

**WHERE CAN I GO?**

Queen's University programs in Aging and Health position graduates for success in a variety of settings that serve the growing population of older adults including government, for-profit and non-profit organizations. Potential career opportunities include:

- Program development, implementation, and oversight in community-based or public healthcare organizations;
- Coordination and management roles in for-profit organizations that deliver services or create products for older adults;
- Policy development and analysis related to aging and society;
- Program evaluation for aging and health-related services.

In addition, graduates of this program have taken the knowledge and skills gained in this program back to their own places of employment to contribute to the development of age-sensitive services and practices. Taking time to explore career options while building your experience and networks can help you have a smooth transition to the world of work after graduation.
