Why GRADUATE STUDIES in AGING AND HEALTH?
Graduate studies in Aging and Health are offered through innovative programs that provide participants with a comprehensive understanding of aging, with a focus on health and healthy living. Students will develop multi-disciplinary knowledge of individual aging processes, the effect of aging on social systems, and the policies needed to support healthy aging. The program is meant to enhance students' ability to contribute to the development, delivery and implementation of evidence-based care, services, and policies for older adults across a range of settings.

Why QUEEN'S?
The program is full-time and is completed from a distance, through a blended format of on-line and in-person learning. Intensive on-site sessions introduce students to core courses and e-learning technology, as well as provide an opportunity for in-person interaction with faculty and fellow class members. Elective courses are completed at a distance, on-line. The blended format of on-site intensives and on-line components couples networking and experiential opportunities with the flexibility of distance learning.

Queen's University programs in Aging and Health position graduates for success in a variety of settings that serve the growing population of older adults including government, universities and colleges, for-profit and non-profit organizations, business and industry, and various healthcare settings.

Program STRUCTURE
PhD (4 years, full time): Course work consisting of 4 courses (normally including 2 core courses), comprehensive exam, thesis and defense.

Core COURSES
- AGHE 901 Knowledge Translation and Uptake
- AGHE 903 Critical Analysis of Theories of Aging

We encourage you to identify an area of research interest and contact a potential supervisor before applying.

Visit the Aging and Health page on the School of Rehabilitation Therapy website to read faculty profiles, and learn more about faculty members' research areas. When you find a faculty member with similar research interests to yours, contact him/her and tell them about your interest in graduate work, area of research interest and related experience.

“I was pleased to know that I could continue to work full-time while going to school.... I am drawn to incorporating research into my current clinical world, while also pursuing a joint career in academia.”
WHAT WILL I LEARN?

A professional degree in Aging and Health can equip you with:

- Knowledge and technical skills
- Effective communication skills in multiple forms for diverse audiences
- Ethical approaches to research and practice with older adults
- Time management skills to meet deadlines and manage responsibilities despite competing demands
- Project management skills to develop ideas, gather information, analyze, critically appraise findings, draw and act on conclusions
- Creativity and innovation
- Independence and experience as a thought leader
- Professionalism in all aspects of work, research, and interactions
- Leadership skills to take initiative and lead discussions and influence people

WHERE CAN I GO?

Queen’s University programs in Aging and Health position graduates for success in a variety of settings that serve the growing population of older adults including government, for-profit and non-profit organizations. Potential career opportunities include:

- Program development, implementation, and oversight in community-based or public healthcare organizations;
- Coordination and management roles in for-profit organizations that deliver services or create products for older adults;
- Policy development and analysis related to aging and society;
- Program evaluation for aging and health-related services.

In addition, graduates of this program have taken the knowledge and skills gained in this program back to their own places of employment to contribute to the development of age-sensitive services and practices. Taking time to explore career options while building your experience and networks can help you have a smooth transition to the world of work after graduation.
Application FAQs

What do I need to know to APPLY?

ACADEMIC REQUIREMENTS

- Completion of a Master’s degree in a related field with a minimum B+ standing. Contact the program director and potential supervisors to discuss how your studies and experiences to date may be related to the Aging and Health program studies.
- The entire transcript is reviewed but particular attention is given to your last 20 courses and how well you have progressed throughout your academic career. Preference is given to students with higher academic standing.

ADDITIONAL REQUIREMENTS

- Two references.
- Current CV.
- Letter of Intent.
- If English is not a native language, prospective students must meet the English language proficiency requirements in writing, speaking, reading, and listening. The School of Graduate Studies requires the following minimum scores: TOEFL (paper-based): 550, (2) TOEFL iBT: Writing (24/30); Speaking (22/30); Reading (22/30); Listening (20/30), for a total of 88/120 (applicants must have the minimum score in each test as well as the minimum overall score), or (3) IELTS: 7.0 (academic module overall band score), or (4) PTE Academics: 65.

KEY DATES & DEADLINES

- Application deadline: February 15.
- Decisions will be made following that date.

Before you start your application, please review the Graduate studies application process.

What about FEES?

- Application Fee: $105
- Program Fee: An annual fee of approximately $1,530.00 (2019-2020) that covers costs of on-site intensive sessions including hotel room and meals, and textbooks for core courses.
- Tuition Fees: The tuition fees for the 2019-2020 year are just over $2,100 per term.

Apply for external funding and see the School of Graduate Studies’ information on awards and scholarships.
