When is the Engineering and Technology Fair?

October 6th & 7th, 2020 10:00– 3:00 pm ONLINE via All in the Loop

What is All in the Loop?

All in the Loop is the online event platform that we are using for the Engineering and Technology Fair. It will provide a smooth and exciting way for you to visit and speak with the employers you are most interested in.
How do I Register for this event?
Register in MyCareer to take part in this exciting Queens-only event and you will be sent login information.

How do I access the Engineering and Technology Fair in All in the Loop?
There are 2 options for accessing the Eng and Tech Fair in All in the Loop

a) on desktop computer
b) on a mobile device

   • Password: EngTech2020
   • Click “I agree to the Terms and the Privacy Policy” and click Login
Once you have logged in, you will see this screen on desktop:

you will see this screen on mobile:

What employers will be present?

There are two ways for you to see the list of the employers who will be present on one or both days of the fair.

- Download the Exhibitors Guide here: EXHIBITOR GUIDE
- Click on the Employers icon or select Employers from the sidebar menu on the All in the Loop main page after you have logged in. Click on the name of any company you would like to meet. You will be taken to a page with information about that company.

How do I speak with an employer?

Companies have been able to select several ways to meet with students – Networking rooms (up to 12 participants per room), 1:1 video calls; Zoom and/or Teams and/or Web Ex meetings.

Networking rooms

Join a networking room by selecting the NETWORKING ROOMS ICON or choosing Networking Rooms from the sidebar menu. From there, scroll down to the name of the company you would like to meet and click to enter. If there are already twelve people in the room, you may have to come back later.
1:1 Video Calls
If you wish to take part in a 1:1 video call, select the EMPLOYERS ICON or choose EMPLOYERS from the sidebar menu, then select the name of the employer you would like to talk to. From there select BOOK A MEETING. If someone is available, you may begin to talk right away. If no one responds to your request it many mean that no one is currently available, or that they are already talking to another student. If that happens, come back and try again later.

Zoom/ Teams /Web Ex
Not all exhibitors will be hosting this type of meeting. Those that are will have links posted on their landing pages. Select EXHIBITORS from the sidebar menu, then select the name of the company you are interested in speaking to. If they have setup Zoom / Teams / Web Ex meetings that information will be available there.

Career Services Areas
Career services has created three areas in the All in the Loop App to assist students to make the most of the Career Fair. They are the Welcome Lobby, the Resume Clinic and the Experiential Learning area.

What is the Welcome Lobby?
In the welcome lobby, students can connect 1:1 with career services staff for Career Advising and Student Preparation. Get help getting ready to speak with employers (prepare your introduction, decide on the questions you’ll ask, etc), and ask any other career questions you might have.

What is the Resume Clinic?
We'll have Resume Coaches available throughout the day, helping you to put the final touches on your resume and giving you great tips to get you started. If the resume coaches are not available when you stop in, please come back or join our networking room and we will help you to get in to see a coach.
What is the Experiential Learning area?
In the Experiential Learning area, you can learn about the Queen’s University Internship Program (QUIP), the Summer Work Experience Program (SWEP) and Work Study programs.

For QUIP: The Queen's University Internship Program staff will be happy to answer your questions. You can join us in a networking room and we can talk about all the exciting opportunities available through the internship program. If you have a question that is specific to you and you prefer, we can take one to one video calls.

For SWEP and Work Study If you have questions about SWEP or Work Study Programs join our networking room.

What if I run into technical issues?
If you have any questions throughout the day, please email qocr@queensu.ca. Career Services staff will be monitoring the account all day, and will be available to offer support.
