Application FAQs

What do I need to know to APPLY?

ACADEMIC REQUIREMENTS
• Master's degree. Transcripts from all previous programs/degrees are considered.

ADDITIONAL REQUIREMENTS
• Statement of research interest.
• C.V. highlighting scholarly outputs and work experiences.
• If English is not your native language, prospective students must meet the English language proficiency requirements in writing, speaking, reading, and listening. You will need (1) a total TOEFL (paper-based) score of at least 600, or (2) TOEFL IBT Writing (24/30); Speaking (22/30); Reading (22/30); Listening (22/30), for a total of 88/120 (applicants must have the minimum score in each test as well as the minimum overall score); or (3) IELTS: 7.0 (academic module overall band score) or (4) PTE Academics: 65.

KEY DATES & DEADLINES
• Application due: January 31 (Domestic & International students), which must include all supporting documents. However, late applications may be considered on a rolling basis until all spots are filled.
• Notification of acceptance: March.

Before you start your application, please review the Graduate studies application process.

What about FUNDING?

Doctoral students in the Geography program are guaranteed minimum funding of $18,000 per year for four years. Minimum funding levels are, however, generally higher than the guaranteed minimum. International students will be provided with an additional $5,000 per year to help offset higher tuition costs. The funding package may be comprised of graduate awards and teaching assistantships. Additional funding is highly likely.

We encourage all students to apply for external funding from OGS, SSHRC, NSERC, CIHR, and other sources. Queen’s will automatically issue a one time $10,000 award to Doctoral students who have won federal government tri-council awards. For more information, see the School of Graduate Studies’ information on awards and scholarships.

Why GRADUATE STUDIES in GEOGRAPHY?

Explore critical questions about our environment and our society as you develop research skills. Study with award-winning faculty in an interdisciplinary department that combines fundamental analysis and research with practical, applied approaches to planning and implementation.

"Geography gave me the support I needed. I was able to take a complex project and really run with it."
― Dr Sarah de Leeuw, PhD

Why QUEEN’S?

The Department of Geography and Planning at Queen’s University offers a comprehensive graduate program based on innovative research and strong collaboration between faculty and graduate students. Our specialized Earth System Science labs include GIS and remote-sensing labs equipped with a wide range of the latest software and hardware, and facilities with the latest field equipment and laboratory instrumentation. In human geography, we provide strong support for fieldwork that engages topics of public interest from the community to the national and international scale. Many of our students work on questions of global significance, including development projects in Latin America or Africa, ecological change in the Arctic or the relationship between international migration and human rights. We provide a place for graduate students to learn and excel within a vibrant and supportive intellectual community.

RESEARCH Areas
• Work, Identity, and Place (Labour Geographies)
• Globalization, Development, Economies, and Sustainability
• Bodies, Health, and Healthcare
• Citizenship, Identity, Justice, and Governance
• Post-Colonialism, Indigenous Peoples, and Place
• Earth Systems Science, with a strong focus on Arctic systems, forests, and resources
• Geographic Information Science
• Urban and Regional Planning

We encourage you to identify an area of research interest and contact a potential supervisor before applying.

Visit the Department of Geography and Planning website to review faculty profiles and learn more about faculty members/research areas. When you find a faculty member with similar research interests to yours, contact him/her and tell them about your interest in graduate work, areas of research interest, and related experience. This is also an opportunity for you to find out if the faculty member is accepting new graduate students to supervise. Consider meeting with your potential supervisor at departmental events for prospective students.

**DOCTOR OF PHILOSOPHY (PHD)**

---

**ACHIEVE YOUR ACADEMIC GOALS**

**YEAR I**
- Key priorities include forming your committee, coursework, developing your research proposal, and preparing for your qualifying exam.
- Meet early with your supervisor to set expectations and discuss roles, responsibilities, program requirements, resources, research/occupational goals, timelines, and any required accommodation plans.
- Look to Student Academic Success Services for supports. Attend and participate in graduate seminars in our Geography Colloquium and in other departments such as SIND, Policy Studies, and Environmental Studies.

---

**YEAR II**
- Complete thesis proposal and defend during Qualifying Exam.
- Find your way through the academic process with the help of Expanding Horizons: Cruising.
- Attend or present at a graduate conference such as the Canadian Association of Geographers Annual Meeting or the American Association of Geographers Annual Meeting.
- Apply for fieldwork funding if needed.

---

**YEAR III**
- Continue to meet regularly with your supervisor, review research progress, and write your dissertation. Check out the SGS Dissertation Boot Camp or Dissertation on the Lake.
- Use conference presentations to create, discuss, and explore ways to disseminate research findings. Learn from the Expanding Horizons Publishing workshop.
- Begin discussion of potential thesis defence examiners.

---

**YEAR IV & TRANSITIONING**
- Plan date of thesis submission for examination.
- Present your research at conferences and departmental seminars and work with supervisor to prepare for defence.
- Review submission and examination guidelines.
- Secure necessary oral defence accommodations.
- Discuss career pathways, references letters, and availability.

---

**MAXIMIZE RESEARCH IMPACT**

**BUILD SKILLS AND EXPERIENCE**
- Think about audiences for your research.
- Complete ROMEO online module on research ethics if doing research with living people or sensitive topics.
- Apply to SSHRC, OGS, and other funding.
- Attend conferences in your field such as Canadian Association of Geographers.

---

**ENGAGE WITH YOUR COMMUNITY**

- Join the departmental Graduate Student Council and seek ways to get involved.
- Consider positions in student services, the SGPS, or media outlets like the Queen's Journal, CFXQ, and the SGS Blog. Look in the AMS Club Directory.
- Use a Teaching Assistant, Research Assistant, or Research Fellow position to develop your skills and experience.
- Consult Expanding Horizons.

---

**LAUNCH YOUR CAREER**

- Volunteer with community organizations such as Sustainable Kingston, the Frontier Arch Biosphere Reserve, or with Kingston Community Health Centres.
- Take advantage of the numerous facilities and laboratories and learn what research is occurring in the various departmental research groups.
- Consider joining professional associations like the Canadian Association of Geographers or Canadian Geographical Union.
- Attend departmental and Geography Graduate Student Council Emerging Research Seminar series.

---

**WHAT WILL I LEARN?**
- A graduate degree in Geography can equip you with:
  - Research and technical skills: Effective communication skills in multiple forms for diverse audiences.
  - Information management: prioritize, organize and synthesize large amounts of information.
  - Time management: Meet deadlines and manage responsibilities despite competing demands.
  - Project management: develop ideas, gather information, analyze, critically appraise findings, draw and act on conclusions.
  - Creativity and innovation
  - Persuasiveness
  - Independence and experience as a collaborative worker
  - Awareness, an understanding of sound ethical practices, social responsibility, responsible research and community engagement.
  - Professionalism in all aspects of work, research, and interactions.

---

**WHERE CAN I GO?**
- A PhD in Geography can take your career in many directions. In Canada, less than 40% of all PhDs will work in post-secondary education – the majority will work in industry, government, or non-profits.
- Academia and teaching
- Consulting
- International development
- Government
- Policy
