Why GRADUATE STUDIES in CULTURAL STUDIES?

Cultural Studies is graduate school reinvented for the 21st century. We are a self-governing, interdisciplinary graduate program for people who want to develop the tools to critically understand the world, and change it. The complexity of contemporary culture means that more than ever before society needs people trained in multiple disciplines, theories and practices. We work with communities throughout and beyond the university to create new forms and methods of research that could not be done in traditional departments. Our students write plays and curate exhibitions. They travel to Argentina, China and Turkey for their research. They win the highest academic accolades, including Fulbright and Vanier scholarships.

What unites all these diverse research agendas is our passion for social justice. We believe that all our research should in some way be capable of addressing real world problems. Students work with indigenous peoples, artists, students, prisoners and activist groups to bring about social transformation. They also conduct artistic research-creation, and present their work in a variety of media. When they graduate, our students have superior intellectual tools and practical skills that will last them a lifetime outside of the university.

Why QUEEN’S?

Comprising over 100 students and over 90 distinguished faculty from 22 disciplines, Cultural Studies is an innovative and growing interdisciplinary research program. Our programs include opportunities for cultural production and community-activist fieldwork as options alongside traditional academic research. We are also committed to a diversity of students and faculty and to the global expertise that they bring to the cultural and academic fields. Students participate equally with faculty in the program’s governance.
