Why GRADUATE STUDIES in ECONOMICS?

The Economics MA program prepares students for both applied and theoretical research, and for non-academic careers in both the private and public sectors. The program involves a core of courses in economic theory and quantitative methods, together with a range of specialized electives chosen according to each student’s interest and designed to impart economic knowledge that is at the forefront of the discipline. It also involves an independent research component in the form of a MA essay, which helps students develop intellectual independence that is necessary for continuing professional development. There are opportunities to collaborate with the Smith School of Business, Policy Studies, Law and other departments.

Private Sector & Others:
