Resources Leadership MEERL Map

Applying to and Navigating Graduate Studies

The Master of Earth and Energy Resources Leadership (MEERL)

is training future leaders in the mineral and energy sectors. Through part-time delivery and courses accessed online, students can continue working from anywhere in the world and join us in Canada for the in-person sessions.

Why GRADUATE STUDIES in EARTH & ENERGY RESOURCE LEADERSHIP?

MEERL will distinguish you from your colleagues and give you the boost to get to the next stage of your career. This program is built for professionals in the natural resource industry who want to take on a leadership role or are currently in one. MEERL combines challenges related to the mineral and energy sectors into one program, allowing you to learn from parallel industries and fellow students.

As a part-time program, you can immediately apply what you are learning to your career. You can also personalize your degree by selecting electives and completing projects on topics that are of interest or related to your job.

Why QUEEN'S?

As an online student, you'll have support for your success, experience Queen's quality education, and thrive in an interactive learning environment.

This interdisciplinary degree will capitalize on Queen's traditional strengths by drawing teaching staff from across the Queen's University Campus (Arts and Science, Engineering and Applied Science, Smith School of Business, Law, and School of Policy Studies) and industry experts (consultants and business owners).

Program at a Glance

Designed for the mining and oil and gas industries, taking an interdisciplinary approach.

Delivery: Part-time, 20 months, primarily online, approximately 2 weeks of in-person sessions in Ontario and Alberta, Canada.

Content: 10 courses (7 core, 3 electives), field trips, leadership workshops, case studies, networking events, and guest lectures from industry professionals.

The ONLINE Advantage

Online learning offers a flexible approach to complete a degree while balancing your busy work and personal life.

- Courses are designed to fit your lifestyle with course materials being available 24/7 through our online platform.
- Course content is paired with live webinars, discussion boards, and individual conversations with professors to create an interactive learning environment.
- Assessments include individual and team projects, live negotiation activities, town hall debates, presentations, quizzes, and exams; all of which can be completed from your home.

More about the IN-PERSON SESSIONS

There are currently two residential sessions. During these sessions you will get to know your classmates and professors, take core courses, go on field trips, and attend networking events.

- The first session is held at the start of the program (September) over 5 days at Queen's University in Kingston, Ontario.
- The second session is mid-way through the program (July or August) over 8 days in Calgary, Alberta.
- There is an optional 8-day field trip course before the second in-person session where students visit sites in Western Canada.
