Why GRADUATE STUDIES in GEOGRAPHY?

Explore critical questions about our environment and our society as you develop research skills. Study with award-winning faculty in an interdisciplinary department that combines fundamental analysis and research with practical, applied approaches to planning and implementation.

Why QUEEN’S?

The Department of Geography and Planning at Queen’s University offers a comprehensive graduate program based on innovative research and strong collaboration between faculty and graduate students. Our specialized Earth System Science labs include GIS and remote-sensing labs equipped with a wide range of the latest software and hardware, and facilities with the latest field equipment and laboratory instrumentation. In human geography, we provide strong support for fieldwork that engages topics of public interest from the community to the national and international scale. Many of our students work on questions of global significance, including development projects in Latin America or Africa, ecological change in the Arctic or the relationship between international migration and human rights. We provide a place for graduate students to learn and excel within a vibrant and supportive intellectual community.

“Studying Geography has allowed me to go places I never thought I would be able to go.”

– Rebecca Edwards, MSc

Program STRUCTURE

The 2-year Geography graduate program can be completed as a MA or MSc, with two methods:

- Method II: 6 graduate term-length courses, a half-thesis, and an oral defence.

RESEARCH Areas

- Work, Identity, and Place (Labour Geographies)
- Globalization, Development, Economies, and Sustainability
- Bodies, Health, and Healthcare
- Citizenship, Identity, Justice, and Governance
- Post-Colonialism, Indigenous Peoples, and Place
- Earth Systems Science, with a strong focus on Arctic systems, forests, and resources
- Geographic Information Science
- Urban and Regional Planning

We encourage you to identify an area of research interest and contact a potential supervisor before applying.

Visit the Department of Geography and Planning website to read faculty profiles and learn more about faculty members’ research areas. When you find a faculty member with similar research interests to yours, contact him/her and tell them about your interest in graduate work, areas of research interest, and related experience. This is also an opportunity for you to find out if the faculty member is accepting new graduate students to supervise. Consider meeting with your potential supervisor at the departmental events for prospective students.
**Geography**

**MA, MSc MAP**

**FALL OF YEAR 1**
- Start with key priorities like developing your relationship with your supervisor, and doing your coursework.
- Consider how your course papers can contribute to your thesis.
- Find your way through the academic process with the help of departmental and Expanding Horizons professional development workshops, the department Grad Chair and the SGS Habitat.
- Begin to research and write your thesis proposal.

**SUMMER OF YEAR 1 / FALL OF YEAR 2**
- Complete your coursework.
- Start research with goal of completing most of your research by January of your second year.
- Consider publication options for your research.
- Attend or present at a graduate conference such as the Canadian Association of Geographers Ontario Division (CAGONT) meetings.
- Attend and participate in graduate seminars in our department and in other departments such as the Policy Speakers Series and the Environmental Studies Speakers Series.
- Consider participating in the 3 Minute Thesis (3MT) competition.
- Expand your research audience through social media.
- Attend a major conference in your field, such as the American Association of Geographers Annual Meeting, or GeoConvention.
- Set up a meeting with the School of Graduate Studies for a Grad Chat to discuss your research interests.
- Consider putting an article in The Conversation.

**END OF WINTER TERM YEAR 2**
- Complete your thesis.
- Publish elements of your research if possible. Learn from the Expanding Horizons Publishing workshop.
- Practice articulating the skills you have been developing in settings outside the university, such as casual conversation, networking, and interviews. Get help from a Career Services workshop.
- Do some targeted networking with people working in careers of interest, through Queen’sConnects on LinkedIn, the Queen’s Alumni Association, professional associations, and at conferences. Get help from a Career Services workshop.
- Consider joining professional associations like the Canadian Association of Geographers if you have not already.

**MAXIMIZE RESEARCH IMPACT**
- Consider positions in student services, the SGPS, or media outlets like the Queen’s Journal, CPRC, Studio Q and the SGS Blog. Look in the AMS Clubs Directory for more ideas.
- Serve on departmental, faculty or university committees. Join the departmental Graduate Student Council (GSC) and seek ways to get involved.
- Check out professional development workshops from Expanding Horizons.
- Start keeping an eportfolio of your skills, experiences and competencies.
- Use a Research Assistant or Teaching Assistant position to develop your research or teaching skills.
- For help with teaching, get support from the Centre for Teaching and Learning. Enroll in SG901 or the PUTL certificate for more professional development in teaching and learning.
- Practice articulating the skills you have been developing in settings outside the university, such as casual conversation, networking, and interviews. Get help from a Career Services workshop.
- Do some targeted networking with people working in careers of interest, through Queen’sConnects on LinkedIn, the Queen’s Alumni Association, professional associations, and at conferences. Get help from a Career Services workshop.
- Consider joining professional associations like the Canadian Association of Geographers if you have not already.

**BUILD SKILLS AND EXPERIENCE**
- Consider volunteering with different community organizations, such as Sustainable Kingston, Frontenac Arch Biosphere Reserve, and Kingston Community Health Centres.
- Take advantage of the numerous facilities and laboratories and learn what research is occurring in the various departmental research groups.
- Get involved in student or young researchers organizations (e.g. through the Canadian Geophysical Union (CGU), the Canadian Association of Geographers (CAG), or the Association of Polyeary Early Career Scientists (APECS) in Year 1).
- Prepare for work or studies in a multi-cultural environment by taking the OUC and Four Directions Aboriginal Student Centre’s Training Certificate.
- If you are an international student interested in staying in Canada, consider speaking with an International Student Advisor.
- Participate in your graduate and professional community through activities such as graduate student outreach programs, organizing conferences, and research groups.
- Prepare for work or studies in a multi-cultural environment by taking the OUC and Four Directions Aboriginal Student Centre’s Training Certificate.
- If you are an international student interested in staying in Canada, consider speaking with an International Student Advisor.

**ENGAGE WITH YOUR COMMUNITY**
- Finding a career that fits starts with knowing yourself. Get help by taking a Career Services career planning workshop or meeting with a career counsellor. Check out books like 30 Things You're Going to do With That or The Academic Job Search from the Career Resource Area for advice on various career options.
- Start reading publications like University Affairs and the Chronicle of Higher Education. Browse non-academic labour market websites. Stay on the lookout for special events like Graduate Student Career Forum to explore your career pathways.
- Check admission test deadlines if needed for further studies.
- Participate in hiring committees and attend job talks. Start focusing on areas of interest. Research organizations of interest and start putting together your CV or resume for potential positions of interest. Get help from Career Services with job searching, resumes, or interviews.
- Participate in hiring committees and attend job talks. Start focusing on areas of interest. Research organizations of interest and start putting together your CV or resume for potential positions of interest. Get help from Career Services with job searching, resumes, or interviews.
- Do some targeted networking with people working in careers of interest, through Queen’sConnects on LinkedIn, the Queen’s Alumni Association, professional associations, and at conferences. Get help from a Career Services workshop.
- Consider joining professional associations like the Canadian Association of Geographers if you have not already.

**LAUNCH YOUR CAREER**
- Explore different careers of interest by reading alumni profiles on the SGS website, and using Queen’sConnects on LinkedIn to connect with Queen’s alumni, or find alumni in various careers through Ask an Alum.
- If you are considering a PhD, explore programs of interest reach out to faculty, and apply to PhD programs and external scholarships.
- Participate in hiring committees and attend job talks. Start focusing on areas of interest. Research organizations of interest and start putting together your CV or resume for potential positions of interest. Get help from Career Services with job searching, resumes, or interviews.
- Do some targeted networking with people working in careers of interest, through Queen’sConnects on LinkedIn, the Queen’s Alumni Association, professional associations, and at conferences. Get help from a Career Services workshop.
- Consider joining professional associations like the Canadian Association of Geographers if you have not already.

**WHAT WILL I LEARN?**
- A graduate degree in Geography can equip you with valuable and versatile skills, such as:
  - Knowledge and technical skills: Effective communication skills in multiple forms for diverse audiences
  - Information management: prioritize, organize and synthesize large amounts of information
  - Time management: Meet deadlines and manage responsibilities despite competing demands
  - Project management: develop ideas, gather information, analyze, critically appraise findings, draw and act on conclusions
  - Creativity and innovation
  - Perseverance
  - Independence and experience as a collaborative worker
  - Awareness, an understanding of sound ethical practices, social responsibility, responsible research and cultural sensitivity
  - Professionalism in all aspects of work, research, and interactions
  - Leadership: initiative and vision, leading people and discussion

**WHERE CAN I GO?**
- A Master’s degree in Geography can take your career in many directions. Many of our MA and MSc students choose to continue their academic inquiry with a PhD. Our Master’s students are equipped with a strong foundation for careers in:
  - Further academic studies
  - Consulting
  - Geographic information systems
  - International development
  - Government
  - Policy research
  - Taking time to explore career options, build experience, and network can help you have a smooth transition to the workforce after graduation.

Application FAQs

What do I need to know to APPLY?

ACADEMIC REQUIREMENTS
• Honours Bachelor’s degree.
• Grade requirements: minimum upper second class standing (B+ average of all courses).

ADDITIONAL REQUIREMENTS
• Statement of research interest.
• Curriculum Vitae.
• If English is not your native language, prospective students must meet the English language proficiency requirements in writing, speaking, reading, and listening. You will need (1) a total TOEFL (paper-based) score of at least 600, or (2) TOEFL iBT: Writing (24/30); Speaking (22/30); Reading (22/30); Listening (20/30), for a total of 88/120 (applicants must have the minimum score in each test as well as the minimum overall score), or (3) IELTS: 7.0 (academic module overall band score) or (4) PTE Academics: 65.

KEY DATES & DEADLINES
• Application due: January 31 (Domestic & International students), which must include all supporting documents. However, late applications may be considered on a rolling basis until all spots are filled.
• Notification of acceptance: Beginning in March.

Graduate applications are done online. Before you start your application, please review the Graduate studies application process.

What about FUNDING?

Master’s students in the Geography program are guaranteed minimum funding of $14,000 per year for two years. Minimum funding levels are, however, generally higher than the guaranteed minimum. International students will be provided with an additional $5,000 per year to help offset higher tuition costs. This basic funding package consists of graduate awards and teaching assistantships. Additional funding is highly likely.

Apply for external funding from OGS, SSHRC and other sources. Queen’s will automatically issue a $5,000 top-up to Masters winners of federal government tri-council awards. For more information, see the School of Graduate Studies’ information on awards and scholarships.

Where can I get help?

Queen’s provides you with a broad range of support services from your first point of contact with the university through to graduation. Ranging from help with academics and careers, to physical, emotional, or spiritual resources – our welcoming environment offers the programs and services you need to be successful, both academically and personally. Check out the SGS HABITAT for available resources.

What is the community like?

At Queen’s, graduate students from all disciplines learn and discover in a close-knit intellectual community. You will find friends, peers and support among the graduate students enrolled in Queen’s more than 130 graduate programs within 50+ departments & research centres. With the world’s best scholars, prize winning professional development opportunities, excellent funding packages and life in the affordable, historic waterfront city of Kingston, Queen’s offers a wonderful environment for graduate studies. Queen’s is an integral part of the Kingston community, with the campus nestled in the core of the city, only a 10-minute walk to downtown with its shopping, dining and waterfront. For more about Kingston’s history and culture, see Queen’s University’s Discover Kingston page.
