Why GRADUATE STUDIES in URBAN PLANNING?

The School of Urban & Regional Planning (SURP) in the Queen's Department of Geography and Planning emphasizes excellence in teaching, with high faculty-student engagement and courses that capitalize on the considerable planning experience of our energetic faculty. This is a professional education program that also has a significant research component. It is officially recognized by the Canadian Institute of Planners as a key stage toward earning the Registered Professional Planners designation.

Why QUEEN’S?

Your instructors will be a team of exceptional professors. The core faculty combine years of professional experience with strong research skills and a passion for promoting learning. Their books are used as core texts in planning courses across Canada and several have been honoured with university teaching and professional service awards.

Program STRUCTURE

There are three methods of completion for the Master’s of Urban and Regional Planning:

- Method I: course work and thesis.
- Method II: course work and research report.
- Method III: course work only. Most students also complete a paid summer internship.

Areas of SPECIALIZATION

- Environmental Services
- Health & Social Planning
- Land Use & Real Estate

Supervisors are matched late in the first year, based upon the final topic of the student’s report or thesis proposal and the availability and research skills of the particular faculty members. Most students preparing a thesis or Master’s research report find a research supervisor from among the regular or adjunct faculty of the School.

“My experiences at Queen’s University opened many doors for me, and prepared me for entering the industry with a solid background of planning theory and practical applications.”

– Michelle Taggart, MPL

Over the past five years, more than 90% of our students have obtained paid professional internships during the summer term in the middle of the MPL program. And over 90% of our graduates have obtained planning-related employment within six months of graduation. About half of SURP graduates work in the public sector, with policy agencies at the federal and provincial levels or as planners at local and regional governments.
