Why GRADUATE STUDIES in INDUSTRIAL RELATIONS?

With an MIR degree, you will be well-prepared to embark on an exciting career in the broad and dynamic field of employment relations. Whether you work in labour relations or human resource management, you will have a direct and positive impact on the productivity and quality of life in contemporary workplaces, ever-changing as a function of legislation, new technologies, and employee preferences. Importantly, our program is designed to produce highly effective professionals who possess a balanced appreciation for all aspects of the employment relationship, allowing our graduates to work in either domain and move between them throughout their careers.

Our programs attract new graduates as well as individuals with extensive work experience into the full-time and Professional MIR programs (respectively). Since the MIR was established in 1982, more than 1000 Queen’s MIR graduates have gone on to contribute to advancing employment relations in private and public sector organizations, both in Canada and abroad. As such, Queen’s MIR graduates have a significant Alumni network with which to connect.
