The world can seem like a big place, but through the LLCU major, students will get a glimpse into how small and connected it really is and be able to engage with intercultural sensitivity and a palette of relevant skills. Through this program, students can learn a minimum of two languages from over 14 languages taught at Queen’s, understanding not only their linguistic structures but the cultures in which they are formed. Learning another language provides students with the ability to step inside the mind and context of that culture and to better understand their own.

**TOP 5 REASONS to study LANGUAGES, LITERATURES AND CULTURES**

1. Courses emphasize critical thinking and expression about cultural topics and the nature of language.

2. Interact closely with professors in class and during our many events held throughout the year.

3. An understanding of languages and cultures gives students a multicultural perspective on the world.

4. Students have the opportunity to go abroad and immerse themselves in foreign languages and cultures.

5. Students graduate with increased intercultural sensitivity and a palette of relevant skills.
