The undergraduate program in Gender Studies at Queen’s offers courses in feminist, anti-racist, Indigenous, postcolonial, queer, transgender, and social justice studies. Students learn about the histories of different forms of oppression, engage with popular culture, and critically analyze everyday events. From research papers and blogs, to presentations and creative productions, students work on meticulous research, clear and thoughtful writing, creative expression, and public speaking. Our courses span the arts and social sciences to produce a truly interdisciplinary program, one that prepares students for a broad range of careers.
