The world can seem like a big place, but through the LLCU major, students will get a glimpse into how small and connected it really is and be able to engage with intercultural sensitivity and a palette of relevant skills. Through this program, students can learn a minimum of two languages from over 14 languages taught at Queen’s, understanding not only their linguistic structures but the cultures in which they are formed. Learning another language provides students with the ability to step inside the mind and context of that culture and to better understand their own.

“My degree in Languages at Queen’s University has been a springboard for me into a world of international opportunities”

-Helen Kneale, BAH ’09
