What determines the prices of goods and services? How do individuals decide how much to spend and save? How can government policies help reduce environmental pollution? These are questions we all face every day. Economics is our attempt to analyze and understand them. Often seen as being all about money, at its more basic level, economics is concerned with the material well-being of human societies.

Economics

David Card earned his BAH in Economics at Queen’s. He has made fundamental research contributions on the impacts of immigration on labour market wages, unemployment, job training, and inequality. Currently the director at the National Bureau of Economic Research and a professor in California, Card was the co-recipient of the IZA Prize in Labor Economics, as well as a recipient of the American Economic Association’s John Bates Clark Prize.

Why study in Kingston?

For 175 years, our community has been more than a collection of bright minds – Queen’s has attracted students with an ambitious spirit. Queen’s has the highest retention rates, the highest graduation rates, and one of the highest employment rates among recent graduates. We are a research intensive university focused on the undergraduate experience. The BBC has identified Kingston as one of the GREATEST UNIVERSITY TOWNS in the world – and it is often awarded the safest city in Canada. It is a university city at the core; just a quick drive to Toronto, Montreal, Ottawa and even New York. A university with more clubs per capita than any other university in Canada, and a city with more restaurants per capita than any other city in North America – you will have the experience of a lifetime at Queen’s – and graduate with a degree that is globally recognized among the best.
