Chemistry explores the composition, structure, and transformation of matter. Frequently called the central science, it provides the basis for studies in many other disciplines, ranging from biology to materials science, in addition to being a booming discipline of its own.

**TOP 5 REASONS to study CHEMISTRY**

1. Chemistry opens very broad career options.
2. With extensive experimental training, Chemistry studies are very hands-on and fun!
3. Queen’s Chemistry Department is a very supportive and nurturing environment; our graduating class is small and close-knit.
4. All major and specialization students conduct research in fourth year as part of their plan.
5. Queen’s Chemistry programs are accredited by the Canadian Society for Chemistry.

**ALUMNI JOBS**

- 10% of alumni work in **GOVERNMENT**
- 11% of alumni work in **HEALTH & MEDICINE**
- 14% of alumni work in **RESEARCH & DEVELOPMENT**
- 32% of alumni work in **EDUCATION**

**alumni STORY**

Not too long ago, Jenny Du was a student at Queen’s. Now she’s living the California lifestyle at a cool startup. As the Director of Extraction, Jenny works with a team at Apeel Sciences to use natural plant extracts to formulate edible coatings that work to extend the shelf-life of fresh produce.

**2018-19 thresholds**

- **2.7 cGPA** AUTOMATIC ACCEPTANCE min C+ in CHEM 112
- **1.9 cGPA** PENDING LIST min C- in CHEM 112

*Thresholds are made on a competitive basis and are updated annually. For the latest information please visit: [QUartsci.com](http://QUartsci.com)
### 1ST YEAR

In first year you will have the chance to explore the foundations of Chemistry in biology, chemistry, geography and geology along with some electives.

See the back page for specific courses to consider.

- Attend Majors Night in the Winter term to learn more about Plan options.

### 2ND YEAR

Start going deeper into the discipline of Chemistry, while considering a minor and/or certificate such as French for Professionals. Attend Degree + in the Fall term to learn more about Certificates and Internship options.

- Want to make sure your academics are where you want them to be? Visit SASS (Student Academic Support Services) and the Writing Centre for some help.

### 3RD YEAR

A chance to start grouping courses in areas of interest, or to keep it more general and explore many areas of Chemistry. Meet with an Academic Advisor to make sure you are on track and have planned out your courses for next year — for some ideas, see the back page.

- Consider applying to do a 12-16 month QUIP internship between your third and fourth year.

### 4TH OR FINAL YEAR

In fourth year you will have the chance to participate in research-based courses that can lead to Graduate School or to your future career path. Make sure to finish up all your courses for your major and your optional minor and/or certificate(s).

- Investigate requirements for full-time jobs, graduate studies, or other opportunities. Assess what you’re lacking and fill in gaps – check out the Career Services skills workshop for help.

### GET THE COURSES YOU NEED

- Grappling with program decisions? Go to Majors Night or get some help wondering about career options from Career Services. Attend departmental information sessions on Plan selection (March).

### GET RELEVANT EXPERIENCE

- Join clubs on campus such as Let’s Talk Science, Women in Science and Engineering or the Undergraduate Science Case Competition.
- See the AMS Clubs Directory or the Queen’s Get Involved page for more ideas.

### GET CONNECTED WITH THE COMMUNITY

- Volunteer on or off-campus with community organizations such as Science Rendezvous.
- Consider joining an intramural sports or an athletics team. Check out the Athletics and Recreation site.

### GET THINKING GLOBALLY

- Prepare for work or studies in a multi-cultural environment by taking QUIC’s Intercultural Competency Certificate, and research possible immigration regulations.
- Speak to a QUIC advisor to get involved in their programs, events, and training opportunities.

### GET READY FOR LIFE AFTER GRADUATION

- Grappling with program decisions? Go to Majors Night or get some help wondering about career options from Career Services. Attend departmental information sessions on Plan selection (March).

### What will I learn?

A degree in Chemistry can equip you with valuable and versatile skills, such as:

- Academic and technical skills to conduct research, understand scientific journals and articles, trouble-shooting, clearly explain and interpret research data.
- Organizational skills to compile, organize and maintain accurate records.
- Ability to operate laboratory equipment and to employ appropriate scientific laboratory techniques.
- Proficiency in mathematical and logical analysis.
- Sensitivity to the health and safety of others - safe handling, storage and disposal of hazardous chemicals.
- Written and oral communication skills.
- Proficiency in mathematical and logical analysis.

### Where can I go?

A degree in Chemistry can take your career in many directions. Many students choose to continue their academic inquiry with a Master’s. Our students are equipped with a strong foundation for careers in:

- Environmental research.
- Forensic science.
- Environmental sustainability.
- Materials science.
- Patent law.
- Pharmaceuticals.
- Pharmacy.
- Public health.
- Quality control.
- Sustainability design.

Taking time to explore career options, build experience and network can help you have a smooth transition to the world of work after graduation.
Sample Year by Year

1ST YEAR
- CHEM 112/6.0
- 3.0 units from MATH 110/6.0, MATH 111/6.0, MATH 112/3.0
- PHYS 104/6.0 or PHYS 106/6.0 or PHYS 117/6.0
- MATH 120/6.0 or MATH 121/6.0 or (MATH 123/3.0 and MATH 124/3.0)
- 9.0 units of electives and/or minor

2ND YEAR
- CHEM 211/3.0
- CHEM 212/3.0
- CHEM 213/3.0
- CHEM 221/3.0
- CHEM 222/3.0
- CHEM 223/3.0
- 12.0 units of electives and/or minor

3RD YEAR
- 12.0 units from CHEM 311/3.0, CHEM 312/3.0, CHEM 313/3.0, CHEM 321/3.0, CHEM 322/3.0, CHEM 323/3.0
- CHEM 397/6.0
- 12.0 units of electives and/or minor

4TH YEAR
- CHEM 497/6.0
- 6.0 units from CHEM 311/3.0, CHEM 312/3.0, CHEM 313/3.0, CHEM 321/3.0, CHEM 322/3.0, CHEM 323/3.0
- 3.0 units of CHEM at the 400 level
- 15.0 units of electives and/or minor

Note that degree requirements are revised regularly. The most current requirements, including course lists and options, are available in the Academic Calendar at: QUarts.com/academic-calendar
