Studying French opens a wide range of opportunities, especially in Canada. The Department of French Studies offers undergraduate students interested in pursuing the subject in-depth the chance to study French as either a minor, a medial, or a major. We also offer courses for the complete beginner and Certificates of Competencies for students not registered in a French Plan. Courses offered focus on oral and written French as well on literature and culture. For interested students, it is also possible to study French in either Quebec or France on exchange.

**REASONS TO STUDY FRENCH**

1. Mastery of French gives access to a multicultural perspective on the world.
2. Find careers in translation, journalism, public relations, and health.
3. Study abroad and learn more about the French language and culture.
4. Interact closely with professors in class and during our many events held throughout the year.
5. Learn not only the language but the history, culture, and literatures of French, in Canada and abroad.
