Why GRADUATE STUDIES in NURSING (MN (PHCNP))? 

Consider the Master of Nursing (Primary Health Care Nurse Practitioner) program for all it has to offer: well-developed skills in critical thinking, writing, and research, advanced knowledge in primary health care, and, perhaps even more importantly, skills to facilitate change in today’s health care system. Graduate students and their work are an important part of an ongoing knowledge creation process that provides the health care system with ways of understanding phenomena using multiple ways of knowing. Today’s employment marketplace seeks people with advanced practice skills who can critically analyze information and evidence, synthesize in both scholarly and public reports, create new knowledge, and lead change and transformation. Study Nursing and you will acquire such skills.

Why QUEEN’S?

The School of Nursing at Queen’s offers a challenging and innovative program to prepare graduates with the knowledge and skills to provide care to individuals and families in primary care settings, conduct small research projects, participate in research teams, and the critical appraisal skills needed for developing the scientific basis for nursing practice. Queen’s University School of Nursing collaborates in a consortium of nine Ontario universities to deliver the MN (PHCNP) program. Our students are taught primarily through small in-person graduate seminars, clinical placements, and self-directed online learning, in which they engage in a critical examination of theory and research, and apply their knowledge related to pathophysiology, health assessment, diagnostics, therapeutics and the nurse practitioner role. Students engage early and continuously in research and clinical practice and successfully complete the program in 2 years. Situated in an academic environment that embodies scholarship, graduates are well prepared for careers as leaders in clinical practice and education.

RESEARCH Areas

Practice environments
- Models of care
- Leadership
- Workplace culture, structure and health
- Communication strategies and systems

Populations with complex conditions
- Optimizing function and well-being
- Multimorbidity
- Mental health and/or addictions
- Outcomes monitoring

Health care quality
- Advancing safety
- Risk assessment and reduction
- Educational and technological innovations
- Health system service and delivery

and more

Visit the School of Nursing website to learn more about the M.N. (PHCNP) program and its opportunities.

Program STRUCTURE

MN (PHCNP) (2 years): coursework, clinical placements, integrated practicum, and a project. Successful completion of the program allows the graduate to apply to complete the Canadian family/all-ages nurse practitioner registration examination.
**WHAT WILL I LEARN?**

A professional degree in Primary Health Care and Nurse Practitioning can equip you with valuable and versatile skills, such as:
- Knowledge and technical skills
- Effective communication skills in multiple forms for diverse audiences
- Information management: prioritize, organize, and synthesize large amounts of information
- Time management: meet deadlines and manage responsibilities despite competing demands
- Project management: develop ideas, gather information, analyze, critically appraise findings, draw and act on conclusions
- Creativity and innovation
- Perseverance
- Independence and experience as a collaborative worker
- Awareness, an understanding of sound ethical practices, social responsibility, responsible research and cultural sensitivity
- Professionalism in all aspects of work, research, and interactions
- Leadership: initiative and vision leading people and discussion

**WHERE CAN I GO?**

A Master's degree in Nursing can take your career in many directions. Our MN (PHCNP) students are equipped with a strong foundation for careers as:
- Primary Health Care Nurse Practitioners
- Educators or Instructors

Taking time to explore career options, build experience, and network can help you have a smooth transition to the world of work after graduation.

Application FAQs

What do I need to know to APPLY?

ACADEMIC REQUIREMENTS
- Baccalaureate program in Nursing approved by a provincial/territorial authority.
- Grade requirements: minimum B average.

ADDITIONAL REQUIREMENTS
- Equivalent of two years of relevant full-time practice as a Registered Nurse within the past five years (minimum of 3640 hours).
- Active registration as a Registered Nurse with the College of Nurses of Ontario.
- Two academic letters of reference (eg course professors in your undergraduate program) and one Clinical letter of reference (eg. your manager or supervisor).
- Undergraduate courses in research methodology and statistics.
- Copy of Curriculum Vitae (Resume).
- Completion of personal essay questions.

KEY DATES & DEADLINES
- Application due: February 1st, or until all seats are filled.

Before you start your application, please review the Graduate studies application process.

What about FUNDING?

We encourage all students to apply for external funding from professional associations, such as the RNAO Nursing Education Initiative Grant Program. For more information, see the School of Graduate Studies awards and scholarships.

What about CLINICAL PLACEMENTS?

Our placement catchment area covers an area along the north shore of Lake Ontario from Peterborough to Smiths Falls to Brockville. For students at Queen's University, clinical placements normally occur within communities within an hour's drive of Queen's. Clinical placements will be secured by the Clinical Placement Coordinator at Queen's University. Students are responsible for transportation to and from clinical placements, therefore a vehicle will be necessary.

How do I use this map?

Whether you are considering or have embarked on graduate studies at Queen's, use this map to plan for success in five overlapping areas of your career and academic life. The map helps you explore possibilities, set goals and track your individual accomplishments. Everyone's journey is different – the guide offers options for finding your way at Queen's and setting the foundation for your future. To make your own customized map, use the online My Grad Map tool.

Where can I get help?

Queen's provides you with a broad range of support services from your first point of contact with the university through to graduation. Ranging from help with academics and careers, to physical, emotional, or spiritual resources – our welcoming environment offers the programs and services you need to be successful, both academically and personally. Check out the SGS HABITAT for available resources.

What is the community like?

At Queen's, graduate students from all disciplines learn and discover in a close-knit intellectual community. You will find friends, peers and support among the graduate students enrolled in Queen's more than 130 graduate programs within 50+ departments & research centres. With the world's best scholars, prize-winning professional development opportunities, excellent funding packages and life in the affordable, historic waterfront city of Kingston, Queen's offers a wonderful environment for graduate studies. Queen's is an integral part of the Kingston community, with the campus nestled in the core of the city, only a 10-minute walk to downtown with its shopping, dining and waterfront. For more about Kingston's history and culture, see Queen's University's Discover Kingston page.
