Why GRADUATE STUDIES in OCCUPATIONAL THERAPY?

Occupational therapy is a dynamic, growing and internationally recognized health profession which for close to a century has been helping to improve the lives and daily experience of children, adults, and communities by focusing on what is fundamental to us all - the daily occupations that give life meaning. As humans we engage in occupation to be productive, to learn, to recreate, and to take care of our most basic needs. Occupation is what gives purpose to our daily lives and connects us to our communities. Occupational therapists are specialists in the use of occupation to prevent disability, restore health, and ensure that all individuals and populations, regardless of health status, can experience full and meaningful lives.

“Why QUEEN'S?

Here at Queen's University we are pleased to offer a graduate level educational program that prepares students to become experts in enabling occupation and leaders in the occupational therapy field within broadening, complex and ever-changing health care environments. This program is designed to prepare you for entry-level practice as an Occupational Therapist.

Program STRUCTURE

**MSc (OT) (24 months): coursework and fieldwork placements, followed by a national exam to gain eligibility for provincial registration.**

The program is structured with fieldwork placements occurring alternately with academic blocks. Each student completes three clinical and one community development fieldwork placement (~1100 hours in total).

The majority of fieldwork placements are arranged through approved service delivery sites in the Queen's catchment area (Cornwall in the east, Renfrew County in the north and Ajax/Aurora in the west). Students are required to cover the costs associated with fieldwork placements. Placements are assigned with consideration for preferences, based upon the available offers and opportunities for all students to meet program requirements. International fieldwork placements are possible for students in the second year of the program.

A full description of the Program Objectives, Curriculum Design and Academic Course Descriptions can be found on the School of Rehabilitation Therapy (SRT) website.

TOPICS Covered

- **Fundamentals of Occupational Therapy:** Occupational approaches to enabling performance and participation of individuals with disability and other challenges across the lifespan
- **Determinants of Occupation:** Factors that contribute to occupational performance
- **Communication Skills:** Therapeutic relationships, counselling and coaching; interprofessional practice
- **Community Development:** Health policy and promotion; occupational approaches to community and population change
- **Critical Inquiry:** Fundamentals of evidence-based practice; methodologies for research, evaluation and knowledge translation; critical enquiry project

---

**What I enjoyed about the program at Queen’s is that they emphasized the importance of building a therapeutic relationship with your clients and working as a team with other healthcare professionals.”**

– Yoon Kwon, MSc(OT)
GETTING STARTED

- Arrive prepared with pre-admission fieldwork requirements completed for Orientation Week.
- Get settled in Kingston and attend the mandatory OT Academic Orientation and Fieldwork Preparation sessions.
- Begin your course work. Consider how your coursework can help with your fieldwork placements.

MAXIMIZE THE IMPACT OF YOUR PRACTICUM PLACEMENT

- Attend all scheduled fieldwork preparation sessions at the School during the academic term.
- Identify placement preferences according to defined procedures. Complete all necessary preparations for fieldwork experiences.
- Ensure you read and understand all components of the Fieldwork Manual.
- Ensure you meet all of the pre-placement requirements set by the placement site.

BUILD SKILLS AND EXPERIENCE

- Serve on departmental or university committees. Talk to the Rehabilitation Society for tips on getting involved.
- Check out professional development workshops from Expanding Horizons.

ENGAGE WITH YOUR COMMUNITY

- Explore how you can connect with your community through experiential opportunities on- and off-campus such as volunteering with disability organizations and supports on campus (like the Winter Adaptive Games, Access Champions or student organizations relevant to your own culture or life experience).

LAUNCH YOUR CAREER

- Finding a career that fits starts with knowing yourself. Get help by taking a Career Services workshop or meeting with a career counsellor. Check out books like So What Are You Going to Do With That? for advice on various career options.
- Stay on the lookout for special events like School of Graduate Studies: Career Week to explore your career pathways.
- Explore different careers of interest by reading alumni profiles on the SGS website, and using QueenConnects on LinkedIn to connect with Queen's alumni, or find alumna in various careers through *Ask an Alum*.

INTERMEDIATE STAGE

- Continue with your coursework and fieldwork experiences.
- Take advantage of the teamwork opportunities offered in the program.
- Engage in interprofessional learning opportunities.
- Find your way through the academic process with help from departmental and Expanding Horizons professional development workshops, the department Grad Chair and the SGS Habitat.

- Become familiar with the routines, schedules, and responsibilities of the specific fieldwork placement as well as to the human and material resources of the setting.
- Identify, in conjunction with the preceptor, areas on which to focus learning during the placement including completion of learning objectives in collaboration with the preceptor.
- Spend time outside working hours on academic/clinical pursuits related to the fieldwork placement (avg. of 1-2 hrs/night).

- Attend a major conference in your field, such as Canadian Association of Occupational Therapists (CAOT) and Ontario Society of Occupational Therapists (OSOT) annual conferences.
- Start your eportfolio documenting your skills, experiences and competencies.
- Select a critical enquiry project that will build specific skills or knowledge areas that align with your future goals.
- Participate in activities such as graduate student outreach programs, organizing conferences, and more.
- Build your skills in the public health competency of Diversity and Inclusiveness by taking the Intercultural Awareness Training Certificate hosted by QUIC and Four Directions Indigenous Student Centre.
- If you are an international student interested in staying in Canada, consider speaking with an International Student Advisor.

- Do some targeted networking with people working in areas of interest through QueenConnects on LinkedIn, the Queen's Alumni Association, professional associations, and at conferences. Get help from a Career Services workshop.
- Consider joining professional associations like the Canadian Association of Occupational Therapists (CAOT) and Ontario Society of Occupational Therapists (OSOT).
- Practice articulating the skills you have been developing in settings outside the university, such as casual conversation, networking, and interviews. Get help from a Career Services workshop.
- Use your eportfolio as part of your job search strategy.
- Check out opportunities for extra training through Career Services, Expanding Horizons, OSOT, CAOT and other sources to boost your skills.

WRAPPING UP

- Complete your course work.
- Complete your critical enquiry project.
- Prepare for your National Occupational Therapy Certification Examination.
- Reflect on the professional skills acquired through your fieldwork experience.
- Learn how to properly articulate your skillset when applying for jobs with Career Services workshops.
- Attend the Rehab Society’s annual Career Fair which is organized for graduating students (January or February).
- Practice articulating the skills you have been developing in settings outside the university, such as casual conversation, networking, and interviews. Get help from a Career Services workshop.
- Use your eportfolio as part of your job search strategy.
- Check out opportunities for extra training through Career Services, Expanding Horizons, OSOT, CAOT and other sources to boost your skills.
- Identify, in conjunction with the preceptor, areas on which to focus learning during the placement including completion of learning objectives in collaboration with the preceptor.
- Spend time outside working hours on academic/clinical pursuits related to the fieldwork placement (avg. of 1-2 hrs/night).

WHAT WILL I LEARN?

A graduate degree in Occupational Therapy can equip you with:

- Knowledge and technical skills
- Effective communication skills in multiple forms for diverse audiences
- Information management: prioritize, organize and synthesize large amounts of information
- Time management: meet deadlines and manage responsibilities despite competing demands
- Project management: develop ideas, gather information, analyze, critically appraise findings, draw and act on conclusions
- Creativity and innovation
- Perseverance
- Independence and experience as a collaborative worker
- Awareness, an understanding of sound ethical practices, social responsibility, responsible research and cultural sensitivity
- Professionalism in all aspects of work, research, and interactions
- Leadership: initiative and vision leading people and discussion

WHERE CAN I GO?

Since Occupational Therapists are regulated health professionals, the National Occupational Therapy Certification Examination (NOTICE) is required to become a practicing OT in Canada. It is used to test candidates on both academic and professional knowledge. Each province in Canada has its own regulations that must be met by the OT candidate. Specific requirements can be found by contacting the provincial regulatory organization for the province of choice. THE NOTICES is written at the end of your studies, typically in November.

A Master's degree in Occupational Therapy can take your career in many directions within the field of OT. Our Master's students are equipped for challenging opportunities in:

- Hospitals
- Rehabilitation centres
- Private practice clinics
- Family health teams
- Community and home care programs
- Schools
- Community development in Canada and internationally
- Government
- Government

Taking time to explore career options, build experience, and network can help you have a smooth transition to the world of work after graduation.

Application FAQs

What do I need to know to APPLY?

ACADEMIC REQUIREMENTS
- To be eligible for admission, students must have a four-year baccalaureate degree or equivalent with a minimum second-class standing from a recognized university.
- Grade requirements: Upper second-class standing (B+). We consider applicants’ cumulative converted GPA on a 4.0 scale for all years of undergraduate university study. Our students typically have a cumulative GPA of 80% or higher.

ADDITIONAL REQUIREMENTS
- Statement of Intent (two essay questions which are found embedded in the ORPAS application created by the applicant.)
- Resume
- Two Confidential Reference Forms (downloadable from ORPAS application)
- Description of career goals and how the completion of the graduate degree contributes to their achievement
- If English is not a native language, prospective students who have resided in Canada or another English speaking country for less than three years as of the first day of the month of the term in which students are to begin studies must achieve a satisfactory score on one of TOEFL, MELAB, IELTS, or PTE Academic. The English language proficiency requirements are: TOEFL (paper-based): 550, (2) TOEFL iBT: Writing (24/30); Speaking (22/30); Reading (22/30); Listening (20/30), for a total of 88/120 (applicants must have the minimum score in each test as well as the minimum overall score), or (3) IELTS: 7.0 (academic module overall band score), or (4) PTE Academics: 65.
- We offer Indigenous applicants the opportunity to self-identify and be considered under the Queen’s School of Graduate Studies Indigenous Students policy. Students can also choose not to self-identify and apply through the general admission process.

KEY DATES & DEADLINES
- Application due: early January. Note that applications for Occupational Therapy at Queen’s are all made through the Ontario Rehabilitation Science Programs Application Service (ORPAS) which can be accessed through the OUAC website. The ORPAS application site opens mid-October, the deadline is early January.
- Notification of acceptance: mid May

Before you start your application, please review the information on the ORPAS website for Queen’s applications.

What about FUNDING?

MSc(OT) students are eligible for bursary assistance through student awards, including the Queen’s General bursary.
